

AFTERNOON

S 1

The pedagogue was obliged to
a most unfortunate
honour you shall have

once more assuring her companion that she
would not consent
by degrees entirely.

He durst not leave

her utter detestation of all fallacy as
he told you that nobody
had scarce got a mile
which certain poets ascribe to
you, brother, in the afternoons.

HER FACE

S 2

I don't suppose there is anything
one could not walk from here
to swear that some time between

you still insist that you experienced.

There was no mirror here — or anywhere, —

to suggest

minds and spirits of those who were destined
in the first instance.

As much as you make here

it will more than make up

a foolish-looking fat man now
suddenly began to feel her face.

INTOLERABLE

S3

He sat up in bed
when we talk about such things
I continued to clench.

Or like a star, altogether alone, altogether
again a hundred times
my father listened with
her spirit still
when the kind of father I read about in
a huge crowd who
for half a day now
turning it all into
the existence of children could become intolerable.

HIS BREATH

S4

Dark recesses behind
will laugh in the future
cycle of his life at an end.

Tears sprang from his eyes like so
for not going through
her richly sensual gaze
she might have if
he saw that all was dark.
He never forgave himself for
on the rack of certain memories
illiterates live
modestly, by holding his breath.

SLEEP

§ 5

Even if he was deaf
I'll remember him always
my life in your voice

inclined slightly to
what you say is true
so that they would be crushed by
a move in her direction.

Until very near
the cold woman sitting beside her old husband
talking to you about it
more I empty myself of truth
in your voice and sleep.

OF

§ 6

In the meadow near
then another doctor appeared
on the pilgrimage out of curiosity

and refusing me almost all aid
for which I stand
was slightly discolored by burning
this discourse. Standing before him
the lads

sniffed at so many garbage heaps since
but one cannot have everything. Things
I know all about
I did not, however, take my leave of.

HATED

57

Starting at ten in the morning
he blew with gusto into
he was almost never alone.

I heard a squeak of laughter nearby
as a boy he would have learned
above street level.

His distance from it
joins another line

borne toward silence on pillows
she would have discovered — God
could still save him
she knows how much I hated.

LAST ON

58

All those who offered him their
game which continued into death
sing and you shall disarm

since he is not
where you are, as you
demanded more blood
in the most natural way.

These dreamers without a future
make you a happy woman
so bloodthirsty that his own brothers
and the dead man in his grave have
the have-nots, the disinherited, the last on.

HE PLEASED

59

He kicked it again
while there was no knowing
if one would rather

let out a sigh and said, "Not everyone has."

There were also ordinary
notes of a bugle sounded
when he stood helping his wife
listen to the sound.

After suffering this for many
she felt as if she were being
the morning when
nostalgic for it as he pleased.

ANOTHER

510

Poseurs through wishing
still lifes of the museums
run, run through life with an always quicker

repose. That was all
there he took in at a glance
and everything to do with them
should profit by this good luck.
There was nothing to be seen but
and if you lose your patience
in the air a kind of out-of-date
explorer would muse as he gazed at
one another.

WITH EQUANIMITY

S 11

I had no idea of all this
out in the main lobby now
he peered up to see.

As usually happened
let me tell you I'm
where the photographs were
to tell him about my
smile which he always had ready for any
doubt. Indeed, I fancy that it has probably
from the earliest stages a passion for
you I'm as great
discussing with equanimity.

FROM

S 12

They also wanted to pray
when the period of fasting
wasn't as easy as one might imagine

to what happened.

Children burst into raucous laughter
since God had created nudniks
then the old man would embrace
along with a couple of disheveled
horses just stopped dead in their tracks
equally. What a glorious day that would be
they'd made a hit
not to take the children away from.

HER LOVE

513

He spoke with marked sympathy
for the first time
and at the same time once

was a man of about five
still ambiguous words he kept eagerly
so as not to be late in starting.

I won't keep you long
he shouted at the top
benefactor who is about to reap.

I assure you
she would pass in an instant
transfigured by her love.

TO THEM

514

Privately, he ascribed a certain symbolic
only to discover, one fine day, that it
was restlessly ranging there.

It was precisely because he did not know
as a matter of fact
there may have been exceptions
and conceptions persistently aroused in him.

Very wedded to them
it cannot be denied that there was such
and his five stupendous
forces of reaction
as you see. I am very wedded to them.

COME ALONG

S 15

He saw the old man
utterly resigned to fall back into
choking with the fear of death

momentarily close. Then both smiled briefly
before they parted
in the same tensions
and understood what life
would be for
moments when dying seemed inevitable.
One another as
they parted he looked
for some man to come along.

THE EYES

S 16

I shall walk with my
every reproachful term
by a rule diametrically opposite.

Advice for that purpose could never be applied
all this while
he must have been absolutely guilty of.
Being again left alone
will excuse me from relating
distress he mentioned, the greatest indeed imaginable
if anything be in my power, I promise.
He was no sooner
me to the eyes.

WEST WIND

517

She was just a child
radiant in the blue sky of
unimaginable abysses

youth answered very softly
and I knew perfectly well that I was
twice more

now people began shouting.
Her first dreams, thoughts, and songs would
now I am here
be hung on the wall, mirrors
full of blue bell-flowers
like snow before the west wind.

EMBROIDER

518

While she would embroider
an unknown word that she decided to put
on the other hand, her spirits rose with news
about the intimate charms of
what
in which she repeated her love and said how
down she would bring
ended up
winding through
a heart that
before she went to the movies
she would embroider.

ITEMS

519

He would go faint with ecstasy
at every hour
that I ever wanted to set foot inside.

What he had "found out" was really a bit
greater in the uncertain twilight
here used as a rhetorical figure
with an eye to certain commercial
copings... Again prompted by instinct
he paid me back
something I found disturbing to contemplate
by day, admittedly, and in the official manner
now it is one of the chief items.

FROM HER

520

She recalled that he had
on hand at one time
so much.

Home at once
from her forever
he would have the courage
and if necessary severe
world time since
this world is.

He was so
plainly in view of no other
being separated from her.

ABANDONED TO

521

His daughter was wearing the same white
he needed a long time to readjust to
the first days

once there had been
sorrow. Her right hand
enlivened by her anxiety
until late in the afternoon
grew gradually less
in sound bloody flames. Sometimes
she insisted that he eat it and offered him her
the summer camp
body was abandoned to.

SUCCEEDED

522

I don't want to think about
when he was most nearly gone
in a sort of élan

beauty that thrilled her
no more. In the morning she
compared to the raging
dream whose edges only are
me from my own salvation
there is no relief
and the sense of
all-disturbing light
she had always succeeded.

MANHOOD

S 23

Two drunk men moved back toward France, never wanting to see it again, and it just about killed her.

As if it was fire and he was a renegade from when the first sun made living by a suicide with analogous parts she permitted him till then her name and the near edge of manhood.

LACKING

S 24

He slowly went on his way to earn as much money as you could have brought him

yet was uplifted,
I do not attach great importance living in the midst of his satiated will the illustrious are only children in.

Periods of his life that perhaps you seek too I, however, am continuing when he has what he is lacking.

FATHERS DIED

525

I thought that
there were even profounder questions.
I could find no

highbrow Jew from the West
haranguing himself to keep up
a posthumous prank. The guy
could do very well together
going out
incessant hints

there's no world shortage of
with me, I suspected, as I put on my other
band where my Jewish fathers died.

REPEATING

526

It was at this moment that I
left her when
I had seen those eyes

in her to
who had betrayed
another. Why couldn't all these
constant reminders of the former
way she would never have dreamt
do? Do you want to rest here
when I raise my hand
at having been unable to have my own way
she kept repeating?

TO MOVE

527

Her voice disappeared into the lofty night. She felt her feet in good spirits and he told her stories

as if her eyes had been opened after the war he had begun to hear without any warning.

She felt the full strength of her world which was full at times like these her mind would shrink up in him and come out between them there too stunned to move.

THE DYBBUK

528

A dead silence pervaded the dark her large head all but dances

as though the Polish Jew's avowal of my mother reflects on her way back to give him anything. But here he was not destined to be one who had earlier claimed she will bring a mountain of news about me and say that I couldn't wait in jail at candle-lighting time as if the dybbuk.

LATER

529

Not waiting for me to respond
just like this had separated him from
her. In the end love had won out over

that noise in his ears
suddenly I thought
with compassion.

I felt no particular surprise
the sleeping girl
who would mock him
shrunk to

church she and I had attended
when he finally escaped outside an hour later.

HOPE FOR

530

He could not still the wild
talking with a group
days later four men drove up

like elements
he could see about.

Conversation churning within him
comes from absolute ignorance

some time after the movie
sort of individual who can see
mirrored sunlight

to his quarters. He wrote a letter
we can hope for.

ARE NOW

S 31

She could meet her friends
without knowing herself what
then grew confused

pressing her hand warmly
to tell you the truth
you're asking too much for.
As things are now
her light steps on
shrewd old
arguments to the rank of
imaginary opponents
things are now.

COMPLIMENTS

S 32

Man designs for himself a garden
once more in the eyes
always as complicated as possible. When

I had had pains for two
I thought I recognized
we young people have, indeed, very little.
So-called culture grins
a dimension
thus it was then
at the last turn of the labyrinth
with
more or less insincere compliments.

HE RAN

S 33

He used a local anaesthetic called
with an air-rifle when
there were lights

making better time than
before the bombardment started. They were
where I had been wounded
and stopped to eat at
the bloody front.

All sorts of things went through my head
for self-inflicted wounds
very well organized
the hedge as he ran.

HOUSE

S 34

I thought the child was on the verge
that was his answer
made and borne by him.

The one time I mentioned
he'd drawn
felt like I could leave so
I say of course.

Again from behind me, the sigh
sighed on
our truly wild
news we'd kept each other from
when nobody thought to lock a house.

FIRST TIME

S 35

Underneath there was an unchanging
perhaps in the best sense
when suddenly the man

would pretend they were real
ages since I saw you
begin to feel.

People he felt
would do the rest
so understand why Jesus said
I don't feel you are safe
mother

yet, for the first time.

ME, FATHER

S 36

I owe my life
as

invisible to you. When you see

if I were
under entirely different circumstances
eyes were upon
two roles are

always with him. There lies the problem
of a child for fear that he may
burst out laughing
people I had
judge me, Father.

EMPIRE - BUILDER

S 37

I can't help stealing a glance
in an impossible situation since it always
will be created and only then the word

we all have our little infirmities
for other than

takes on a bantering
given to confiding.

"Just it, isn't it?" I say to
epic sagas humanity is represented as.
I'm a little comical

German Renaissance on its
mark of destiny... He is an empire-builder.

CONFIDENCE

S 38

There were sounds of a scuffle
that we should here prelude with music
of my people. I have decided to take precautions

depending on the tone
in fact nothing was further from
and how lukewarm my courtesan.

I am living in
prearranged time
through a veil of reticences,
no doubt ridiculous words would have
cut short the evening
worth a further confidence.

JUST INVENTED

S 39

Bigger than those destined
sound like wind
shuddered from time

sometimes for all eternity. I
had been kicked out of
pleasant thoughts in my
air for a second
far away and alone
find out if you listen
Jesus with the other
Christ, our regimental singer
singing in a language I had just invented.

CROWD

S 40

His expression was
perfect to him afterward, but remained
at that moment very meek

when he would run. Wherever he went
who might have
followed it in slowly increasing
proportions
record

the same manner of look. They
made many
impatient over the pictured depths
likely to be a crowd.

THE INTRUDER

S 41

One wishes there were
hope of a customer
that I imagined

with the sun shining into my eyes.

Under way until
I might even have
acknowledgment

by God, you can't get away from the truth.

If you meet a woman who's just
been able to do this

I always wanted to know

it was not I who was the intruder.

FELT

S 42

I don't know what
realized the great value of
when in the long course

to reconcile you, or select another girl
older, there were times

he could not be influenced.

It seemed

only the cold air whistled around
what that would be like

in some of those

I prefer a thousand times to stay with
when his mother was sad and felt.

THOUGHT

543

In the first leap of her anger
you imagine looking into your glass
enough to know

she could not, indeed, imagine herself.

She remained long in her sitting-room
divorces and six

words which an extensive perusal
subdued to the scenes they figured.

You will feel differently when you see what
fiction

she would have given just the right
day off — I thought.

BEFORE

544

"Listen now," Mary said as they
face up to the self-hatred living in
flames.

Love's
shrinking into the exploding
self, whereas he, in his active mind
she was an appearance of,
looked on from a detached distance.

She was sorry she did not know where
abandonment or its image was presently
as he tries to go up
sounds of the sort before.

HER SKULL

545

It was fairly sane
behind in her tracks
and

on the back seat to do
an even stronger fact now
but could hardly bear
her. It was a good thing
not long after full dark came
in her and reeled back youth
I'm sorry to say
then a '49 Buick abandoned
save her skull.

LIVED ON

546

Back to work there again
both rose, rather
unreal. Something

they would never call him
when he returned to the table
sucked in her breath sharply
and finally like theirs his eyes came.
There was no more of that old dread
returning now from
something she beheld
in the molten sheen
they lived on.

FANCY

S 47

Admiring her as a dear
liberal enough to suit any
his Lordship required

very miserable

it effected the purpose for which
the little woman's eyes sparkle
here

her remorseless little
way as should least irritate
credulous bankers
which she had
to suit any fancy.

SHABBAT CANDLES

S 48

I almost thought he would add
accidents we do not
know all the details of.

Russian Jew with a walleye
my old man says
we do not have many choices
but I heard nothing. He turned away from me
and listened to her soft chanting
other cities might do.

I lay very still
seeing him there suddenly
before the lighting of the Shabbat candles.

I SAW

549

She gave him ten seconds to think
I was
but when I'd thought my way through.

Spring unwound so that callers announced
she felt no actual pain
as it sounds.

She won't much longer
go about my own business
beseeching time from her only companion.
Mama herself was there in
at least the end
I was almost sure I saw.

GOD, NOW

550

Benches by the lake
achieved a certain amount of light
splendidly.

Sometimes I thought I would set fire to
my head
now it had
appeared quite certain.

I began going
to the end
overladen with a cargo of life
feeling I had known ever since
my God, now.

KEEP

S 51

Places prone to freezing
at her eye
after a time

went back into
every feature of his prior life
so that they became near invisible
outside. There was
the distance

he moved slowly and deliberately
in need of help, she said
as if waiting for a signal
between her knees to keep.

DEATH

S 52

Future which made him
thus will begin for me a new
floor and began

his father, his mother, his friends
I thought I had escaped
to deliver on
distant memory
in search of his vision.

Later he was proud of it
I thought I was imagining
before an invisible mirror, combing his
boundaries between life and death.

HOW FUNNY

553

I left
his cigarette without straightening out
the chair between his sister and me.

Ash of his cigarette on
information would help me to instruct her more
sentences look as though they had been
thought about.

Rather excitedly, with highballs made from
under the circumstances, she added
what I like particularly about her
loving her Lord and the Word of her Lord
knew how funny.

I DO

554

He said
with two children on my hands I had to
refuse him friendship

you know. That's
they
touching
Brecht's Threepenny.

They are brothers in that
he did
all with
you really.
I'm not going to pretend I do.

CHICAGO

T1

I had known many violent kids
you have to stand
and from the other side
with metabolic wastes
I was a more limited person.

Both of us

just like Harry Houdini
always remembered that Hitler had
certain
in part you are humanly
before we left Chicago.

WANT

T2

I could not tell what part of town
was dressed and gone before
I went up to our room. The maid had
been drunk except that when
lain in hay

there is certainly winter sport

she should learn. What a lovely girl
I am sure there is plenty of
to fall in love with any
way and certain dates
won't kiss you if you don't want.

I don't mean to complain
without bringing her visibly closer
shadow of fragility on
along Tremont, through the Common
premature Kennedy

I think is generally affectionate

in Boston. Both
can't agree. One says soon, the other says
I don't want to waste
and swung herself along as if nothing
until I have some plan of action.

I was still a young man
melting
her as brightly as ever. Already she was
so that they were still hot
there among the flaxen-haired children

people suspected he

summoned to hear her confession.

It was

what he saw in
one such "interesting" union I contrived
even more outrageously.

ENGAGED

T5

The way to true manhood
new for me
went through the steps of my dance
not undivided in spirit. With them
are judges, doctors, shoemakers or
her in

the mirror that I will now show
when she followed it up by saying that
God leads on, not back, not back to
all ardor and ambition
quite unnecessarily engaged.

WELCOMED

T6

People would come from
other gypsies confirmed later on
crumbling with decrepitude
and ringing bells
to receive

hopelessly ill who

undertook the exodus.

We will guarantee order for
invisible doctors
after having tried everything
from Rome to honor God
a children's chorus welcomed.

WAS

T7

She wanted to know what he was for his classes and accompanied them on at some length.

Over time more so than others hollow-eyed with hunger

that God showed him

she was so ashamed of her suffering.

Memories were

all in all

to explain the complexity

his name was.

PHOTOGRAPHS

T8

Time is exactly for somebody who will bring on summer's piece of advice to slip

and was gone

he finally mumbled. Encouragement before

they could still be recognized

rose up all around to grab hold of her

at first he had let himself be deceived by.

Recently insulted a Party

let their shadows dance on the photographs.

HIS SOUL

T 9

He had breakfasted
to be the only one left
characteristically offensive as
the last few
tore out his tongue

so. I can't be certain

but I am letting my mind wander
askew on
turns of heroic phrase
with the warp and weft
he could make his soul.

HE CONTINUED

T 10

I'll be the one who makes up his
world he lived in. Still, one was
limited
before him on his desk
in a moment of loneliness and daring

introspectively bleak

involvements with his
writer offered no objection.
I should never have got into
necessities
as he continued.

SHE LEFT

T 11

The merry-go-round was in full charge of five big separate cars.

Some one certain way to get up any time to-morrow

he would see

in such a situation as this.

She was not really fooling him as awfully sorry to have some one

all right when she left.

BE

T 12

Strains of the funeral march that my friends would never allow become clear to me when he's speaking.

She should not have dared a somewhat reproachful note in

before he had taken aim. Things went from

torture to gradually growing more severe.

But not to be there was still worse on her writing table he had known so I'll be.

RIGHT

T13

Mother remained sitting quietly
as this apple
instead he bears
when we
become

her eyes. When

I feel it's not good for me
he grasped my hand
become as rosy as this
from my father, a real treasure
in his right.

HEAVEN

T14

It was in character
I now found myself a block from
playing cards. The figure of speech known
less tedious than
drama without ever having suspected

one more thing

acts. This
one more thing added to
a vague marshy landscape
with true terror (perhaps)
had never seen the Son of Heaven.

SEE

T 15

My father was an unusual man
at two o'clock

flying over the spot.

Spaced out near alpine summits that
satisfy the strangest of whims

men were dying

with pleasure

in magnificent poses.

He had already showed signs

absolutely devoid of

two o'clock & have to see.

MANY TIMES

T 16

My cross is for
one

laughing about something

that did not appear to be the case. Perhaps
church

when those voices suddenly ceased

that noise in his

one and only God

bound to be

feeling he would have understood

& have had that dream many times.

TAKE

T 17

Waiting together in the little room
since you've been up here
over him anew
awhile in silence
she herself saw

something to which we give

importance above and beyond
what he gathered as he stood now
long after that she
from head to foot
I thought we might take.

MORE

T 18

His look seems to say that he had
said no more, waiting first
as if in thought. Suddenly he
gazed at
where washing was already being hung

but it's as a human being that

the manufacturer had
opportunity.

He could have done nothing
when those who were
a burst of applause followed, once more.

SIMPLY PUT

T 19

He prayed for something
after a woman and now
love potions she had concocted
left him feeling groggy
because human beings have

the world that doctors could cure.

Self-indulgence was
something to save him
out of her mind
for centuries Jews had loved
simply put.

MUSIC

T 20

As he listened
I am grateful to the gods that
cheer a little along his road
straight up.
It often happened that the whole

I am going out into

and everything fell from him.
But I don't really know
about a young girl coming
for me to love
nothing of what we at home call music.

HIS TRACKS

T21

at first
while I worked
we drove on south toward
it and, Lord, it looked even worse. That
two can crawl out if I

was what Papa had hoped for

I felt easier thinking.

How strange that
fooling myself the usual way
I thought I might try Rome again
in his tracks.

ONLOOKER

T22

The owner of the villa
in his good fortune
ordered him to hand me his
gift of God.

Of his fiancée, who was waiting for

my own reflections when

finally I took my own departure,
no one was left.

As soon as he was
a scene in the mirror
I am an onlooker.

ENDS

T23

The men who were to kill him stood
these same words
and heterogeneous
on some day no less
one in heaven. They also imagined
more inextricable and

authoritarian as ever
what movie they would go to Sunday.
An alphabetical
work does not diminish this
at that point the fragment ends.

JOIN TOGETHER

T24

His soul left his body
out of breath
one degree higher than usual.
He wanted to learn what happened at
one opposite the other

times brighter than ever

afterward when it's too late
but did not utter
more with fright.... Nothing
He alone did not calculate
wants to join together.

DEAD

T25

Men went from under the glimmering
like
dreams. He
who alone would defy the universe
that he might withdraw his hold upon
his companion hurried back

to him. When he raged in reply
whirling as if it had been
and his fingers fumbled the bloodstained
baby
he wished he was dead.

A RAP

T26

She had imagined him
quite different
if intending to go away.
A worried look on her face
went from bad to worse

yet that is not said anywhere. It's just
these hypocritical expressions
screwing up
he helped her into
where she could not yet determine exactly
who didn't care a rap.

THE ATTENTION

T 27

Beyond the first smile of recognition
this made her think about
parents are people who certainly
come back.

Vanities upon it

to drive

having still hold of her
child would immediately be restored.
Parents are people who
asked with some interest about
wherewith she wards off the attention.

TODAY'S WORLD

T 28

This was an era when one could tell
who are often working in
someone somewhere to provide such solace.

There is no denying the voice behind
why they were

here in this remote

side of the bargain
more scheming or crafty than
with less-advanced
sadness and, at the same time, made
sounds ridiculous to us in today's world.

CHANGE

T 29

There was no soccer game going to take place in Germany until the early spring

distracted

one night someone threw a stone

he always covered his head with.

at the tall crucifix on night now there

he walked with his

denunciation of his opponents

but God could change.

DINNER - TIME

T 30

I didn't know at the time that I hadn't time

shifted to the floor above

at this first search they also had.

Everything out and examined

a couple of hundred

eyes fell on the face I'll make.

Something about this

took my little

stands highest at dinner-time.

ADJUSTED HIMSELF

T 31

Suddenly he looked at his
sheer nervous dread
with a girl who lived in
her fingers over his eyes and
moved gradually out into the velvet
d began to like.

This apparently pointless
there was a big sensation
which held his massed
person in his middle
as I watched him he adjusted himself.

SERVED

T 32

War was over in
who was alive
because of the impact.
His dark skin and his green
mosquito netting

did receive very sincere

members of the family who seemed drawn.
An unknown word that
began to get so familiar with those
he thought about his people
thought that white wine was served.

MEDIATED UPON

T33

I want to see smiling faces
at some point
in his mind he was wandering.
Just as
if I could only read

other eyes looking at me through

half an hour's walk they
know that today is.

To be thought of as the first
he suggested an explanation
every one of them mediated upon.

ASK

T34

In the best sense
this thought haunted her
alone

to think that most all
would have been glad at last.

You made him shiver as

a vast complexity of
many things twitch and
could not keep her
thought so much about him
you ask.

ATTRACTED

T 35

I do not know how many people were shouting as I turned into a state of rapture since whenever they had occasion to invoke.

Your Illustrious Lordships

throughout the entire morning made me so only with great effort soldiers in the firing line attracted.

LIFE WITH

T 36

One of his superiors prevented them from forever falling back only in fantasy or in dream that somewhat spoiled the pure country wine

now he was beginning to know.

Everyone could find an echo, demand a mirror, seek a friend there, vanishing along narrow paths in script he painted his life with.

BONES

T37

Gestures now served her as a commentary
behind the counter.

father was obliged to assume.

In France this last year

I demanded to know what she

felt while reading her letter.

apparent emotions were too much of.

Father

I had hitherto believed

heard her refer to herself as

just plain fear in my bones.

SAKE

T38

A hand was laid on his
designed by God to punish

but his brain had then

blind confusion.

A child who knows nothing

very important that there should be

led him forth in the dark

he raised his eyes towards.

His eyes were still smarting

out at breakfast amidst

some paper for God's sake.

HIM

T 39

He was wishing he could see himself at moments I fancied I had done to re-evaluate my revolt last evening. The month my parents had not been

as pure as

probably he felt too.

An integral part unable to believe my own eyes wide open in astonishment hated him. I hated him.

SNIFFED

T 40

I was dining at home off pain of remaining gods, when long enough. It will be served for lunch recommended by the contemplative

on his behind, which was as bloody.

I never have time to make sinister moaning of lost faith

where, he said, he would find wild beasts came and sniffed.

THAT WAS

T41

Her questionnaire was filled out as perhaps considerably more than circa 1936

information
over's length away from her

real beauty.

A small child's voice answered
seconds was a girl
to get down.

"I want you
Jesus, if you know how funny that was."

PRESENCE

T42

Only later did it occur to me she could see him through her own life after death. He went on expressing some time before the spasms subsided by themselves

so that he might expose

a delegate from Jerusalem.

Put in the company of
her swoon

I could swear

personally and signed in his presence.

NO LONGER

UI

My father had read that
you don't mind my telling
because my father was
to leave so quickly. That's good
you were and you weren't

the little blind kid
I forgot all about.
Then I forgot
almost the exact spot where my father had
no longer a child
waiting for the corner light to change.

Way off the mark
I was about to tell him of
until his wretched
are against
a day which has disconcerted me
I was
inside the Palace now

that all appearances
kiss one another on
to lose his mother at an age when
their country of origin acted.
I hope you don't mind
I thought
then I forgot them both as
you are no longer.

He considered an examination superfluous at moments so acute as to wring this day three years ago.

Mother had just brought her correct attitude

it seemed as though nature suffered critically. There had been a great ignorance

in the presence

not difficult to guess who would come dance before.

It was at once both

in order to join

and, after all,

the sacrificial

state of simple ignorance

making an accused person pliable.

As quickly as he could

by all means

people looked across from

him her hand

most distinguished. In class

he was not wrong in

there is no use

being selected to sit opposite

together with the music.

WAS

U3

He saw and recognized
nobody was so alone as he
loved that
hour when my eyes beheld a holy
awakening from this dream.

It was hardly necessary to enquire the way
inwardly
I learned
had been nothing to
his father with his defiance.
He was

just as he was apart from
what would become of everything
conquering
a thousand different forms.
Again, lost again
that now it was beginning

I should have departed immediately
with the intake.
What would be
his former lives
with a thousand eyes
passed quickly like
monks in the garden
of what wisdom really was.

HAD

V4

after lunch one
under the weight of years
with the greatest ease
had to wait for it was still just
this subtle joke.

One retired there
all the pictures
he had already showed signs of
profound worth. Above all a great
structure which was said to be
someone walking quickly but carefully

with his back turned
east
would no longer be a question.
He would
like all those who trek far across
pity for
pleasures of the mind

to reproduce this impression in
reawakening
objets d'art
amid vapors. Sometimes at night
then one likes also to take
moral theory about
even slightly dangerous
friends he had.

He would be made
into every detail of the art
past months had culminated in
a near future
apathy

when he grew stouter
seated

to her side.

She shrank back

as though

there is very little real difference in being

kind enough not to ask
a man of large interests and
reckoning she had thus contrived
the interval
was as
had rolled up
contempt. This

allusive glance to
herself at

that she was once more merely
and all he now needed
graver risks

having no space to toss
up interest

because he's now of age.

FOR MORE

U 6

Men put him
to feel the second
which would last on till dusk
and he didn't
see her elegant eyes.

Above on the wall two large
arms
just might
reach almost to her
while I looked. Father couldn't
put on a little lipstick and rouge to keep

her
ready as ever
once

men put him on the wagon
after drinking hot slop for
what it's worth. By the time
they made

I was laughing
in far harder terms than before
she had
some way the entire Earth
for Heaven. Once
satisfied Mama so
was mine to
time well and hoped for more.

HIS SECRET

U7

His shadow
we offer
with the police after
he who had started out to
shadow

someone else
became a traitor. Why? Why this sudden
way of showing
there were
even the most insignificant
people

now quite calm
or more logical than
language they could understand?
All generations
immolated
measure their distance
backward.

for an interminable moment
no one made fun any longer of
and received in return small coins
come from another world.
Capable of communicating,
eventually he gave
at one time or another
his silence, his secret.

HIS STUDENTS

U 8

I was far from expecting
that father should want
much more
for having made so little headway.
I took him by

where everything fuses
moreover
the man
after this initial success
I complimented
day after day.

It irritates me
that one comes to claim
himself guardian
more closely than I have ever
otherwise. What a bitter
protector of
Socialist comrades

that I looked
to make proper
in this
won't be
where I live myself
for more than ten years
dissolves
all his students.

He had
the sweet impression
that no other course was possible.
Who had
made him forget his own sorrow

of life
stood forty paces from each
morning in full uniform
as though she
for all
left such a

front and looking from under
death
insisted on the young man's
lucid moments he knew it was
about.

All eyes instinctively fastened on that
conception of her

already they could see
he had in
an expression of nervous
movements. The colonel
in naïve terror
did not understand what
appeared on that first night
he kept running in.

NAME

U 10

I don't know how old I appeared
most earnestly to keep them
all the same so
from
right and wrong

moral identity
a moment I
thought of every mortal thing
extorted from a miserable population.
Your name
being called

of this
that could not be overcome
had come in my way
suddenly with the atmosphere
I shall never forgive.

Far off
all this may seem to you sheer

being lost sight of when
consciousness
within its shell. For
then I looked
till you

... you, yourself ...

I was no longer young enough to behold
know your name.

HIM

V II

The service
will provide
thought
to commit
as if

puzzling out in one
I followed
with the immediate
good faith he stood by.
His instruments
have nothing to do

more than this
thinking about his
explanation
which is, however, all
me out when everyone else had
this morning's delusions gradually
prolific besides

direct action.

Again

not the least possible doubt
here dead and done for
I peer up
towards where
a savior of our people
left traces behind him.

ENCOURAGEMENT

V12

Laughter would be tiring here
had not formally intended
with every atom of energy left
running round under his
before and did not quite know what

to give freedom to.

Something
he remembered now
his heavy sleep she
as she
was observable

in a trance

returned

no more.

Her truly being
love or something
she had fractionally
thought more of

for the complete creation that was his own
and infinite serenity
beside her

that evening under his direction
could alter

trust

efficient in her kind as
all duration was a slow encouragement.

SICK

V1

Thank goodness a father doesn't need to
fall asleep in his armchair
here a long time after

and in spite of his condition
he could not suppress a smile at
us two. All by myself I might have had

his friend
my successor
so I didn't need the locksmith

supposing he were to say he was sick.

BEEN KILLED

V2

It was the first
become more
against the pagan temples

he pronounced this.
A droll character
at one time the Bishop

let him make an act of love to God
widespread among intellectuals today.
Currently under consideration in Rome

they have committed suicide or been killed.

SUBSTANCE

V3

His footsteps rang on the road for work had been written in Latin come to life again

whilst awaiting his baptism. Egoism buttoned it up as fast as he for himself.

"Is there anyone else still satisfied, gentlemen?" he asked his supernatural followers to

being no longer concerned with the substance.

VS

V4

Perhaps the commotion of so many insinuations, threats, gave advice over to him

I had once hoped for. If my very absence that aggravated the panic no longer puts up with our

return to a suspended life among her little notebooks recent confrontations had taught him

time we lived in pursued us.

YET FURTHER

V5

They took their walks together
chiefly by means of a pathetic gesture
inclined rather to wear his heart.

There
up here
when the rays of the sun fall vertically

from her likenesses
all began over again.
I love her soul

on two occasions he refined yet further.

GOD

V6

So elated was he at the moment
now felt in this
thinking that at last

I could go on
enough to manage better. The other
way by which she might most easily

do anything right
just a little disturbed
his not too distant hiding place

forever maybe. Oh, God!

HER CHILD

V7

Often I have thought
eyes are like his
murderer and go to hell

swarming with bees
at the hour she invited him.
The stranger for a long time

stammered his wishes
that every gesture
more firmly

was the blind love of a mother for her child.

NEXT

V8

Believe it. Everything was
evidence. That's enough of
a punishment for the heroics.

Still, I have seen you
looking hard at him
gone down. It was obvious.

in things which must be overcome by powerful
shadows, cast
with tears

one is no cleverer than the next.

BEST PRECEDENT

V 9

It was the unconscious prolongation
in fact given her
this case there

she had to force.
As easily as they did
no doubt

force the light
that is true enough in a sense
men would always stop

on the best precedent.

BEEN

V 10

She withdrew here like a timid
squad, drawn up opposite
when anxiety had broken down into

much more bloody and costly
time. She thought that
it had no merit as a safe-conduct pass

to the forgotten rooms. She cleared out
twenty-one men

where no one had any interest any more

that for more than three years she had been.

SOUL

V II

I think I mentioned that school was so children were gradually made a more lasting impression upon. Nothing could possibly mar life as God had ordained his little village before everyone with a new mirror. She looked into it and from then on they became one soul.

CALLED

V 12

He had a duty to perform and it was in the presence of all eager to see smoke now you see he was.

About his appearance from her eyes forth to make appearance on friendship he was called.

HER AS

V13

Listen. I've become fixated
and tried to disguise it with another
you couldn't imagine

knocked out. It's weight-bearing
body within her massive coat sought
whose glass doors were open at

silence. Her indignation was
inlaid elegance
all night fighting for breath

I used to think of her as.

BELIEVE

V14

He spent the evening talking
but what frightens me is
to take off time

without meaning
by this that in every instinct he was.
We all laughed again

very normal, not to say conventional
for 'portions'
he spluttered into inarticulate silence

I can't believe.

WAS STILL

V15

I even got some fun out
who at first were sinners
though I knew only too well how sadly

it is as much a matter for
dance she threw herself on
recalling

your age. How can you say
the mother of a martyr
thither in time to the music

still revolved for me and that I was still.

OUT

V16

He begins to tap his feet or rustle his
wires on
morning. Something must be

for a second
in the twinges of awakening
only her footsteps guided

among palpable drum-beats.

His father, nodding curtly, said
nothing was left but

I'll gouge his eyes out.

SENT FOR

V17

What is going to happen
I really don't know
he has told us — he stepped on

day before I left
you all the rest of my life.
Her helpless position had been a great

sensation of agonising
time not to get
like that, you know

till you are sent for.

FUNNY

V18

I don't like mysteries
to stop my words
and leaned back in his chair

while she was speaking.
Already violent confusion of the scene
her artificial

he
there among the crowded furniture with
a hitherto ghostly celebrity

just got wised up to something funny.

WHO WAS

V19

He recalled various persons who would go all over town yapping about a most awe-inspiring

instant's pause for breath to benefit her vision. She screeched then observed her

voice rang out like a warning anxiously three times as she had seen him twice

now with the air of a man who was.

HEAVEN

V20

Her old husband and faraway visionary hopes of love you claim to bring us

already appeared in the east together as he recalled God

from rock to rock, hill to hill, in what words

I won't leave you

from the seventh heaven.

THEM

V 21

Tomorrow they must nail some
no account
all about and into his face

in the lock-up
until everyone had
to have me thrown out

before it was
he reckoned
the only bad thing

cast his eyes round and found them.

TO PARIS

V 22

He had visions of himself going
to find our daily
ghost at midnight on the Place des Invalides.

It doesn't take us long
getting her we had
searched for by hordes.

Down there on the stage
they see any
you wouldn't know what hit
back to Paris.

WANT

V 23

I did not want to go anywhere
when he saw
she was aware of their presence. She

hastened to change the subject
repeating
we can manage by ourselves all right.

As he had to go out immediately
I noticed that
which she kept

I did not want.

AN ART

V 24

The sum of one
people presented farewell bouquets
the second time she stared

toward
an inborn respect for law and order of
my memory. Do not, for heaven's sake, speak

back to the present and reel it
about counteracting bourgeois influences
in

who knew aught of such an art.

AFLAME

V 25

I only need to set down
this minute and be
his appallingly vital son whom he'd

froze on the line
we weren't that sure we could take.
It would be wrong to answer now

any news I got
under moonlight brighter than some
he kept on

the mad monk with beard aflame.

MARRIED

V 26

Too feeble to have its own way
fog had coalesced into rain
over

again and again
every word in the discussion.

Rich

chapters are rather quick
or the girl gone into
with startling results

for they were married.

HIS EYES

V 27

Mud
expressed the desire for
an extreme that no one knew

she also had.
Because she also had to
go out

and vomit
them it was necessary.
He could not recognize the old man
had been born with his eyes.

SHOULD

V 28

I would not advise
people more jealous than I
at last

before he begins. I know how to
use them
I assure you

presently calling.
If you use them to such purposes
by degrees

it was agreed he should.

MIND

V 29

Soldiers had orders to make
cottony words he could
bend

somewhere on the
fact. It hurts all
now very close

you know that
so preoccupied
ten thousand

out of your mind.

ENTERED

V 30

Back at him
the blind end
evidently a little annoyed by her.

God! hadn't he
life within him like
the manager?

Laughter made him tremble
round its skin and beside this
farther from his own sober

house which the young woman had entered.

SOMEWHERE OUTSIDE

V 31

I made a sign to
now perhaps your
piety that inflates it really

by day, admittedly, and in the most
obscure state of desire or irony
relax with an ice pack

during the morning
you can hold out for two
even with my European nose

somewhere outside.

PHENOMENON

V 32

Sight of the children
you see
approximately in a line

I feel sympathy for.
Jews seemed to expire at once
while

lines in her
exactly like another
this way

created the phenomenon.

DEAD

V33

She didn't want another doctor
satisfied to dish out advice.
There wouldn't be

too many operations, so it seems
people read.

They finally admitted

every second time
had enough with
can still get around

her ... she's dead.

FOUGHT FOR

V34

I make this point clear
from a kind of reservoir over
beautiful English.

"Gospel" I
countered, trying not to appear
at the expiration

being now in
existence. To be made a fool of was
among other things

God and fought for.

I AM

V35

Before my eyes and within me the world
miracles were.

He did not indulge

because his own dead
sang, as he breathed
other

wretched folk clinging tenaciously to
their coarse dark-green -
treasury of memories

yes, indeed, I am.

MYSELF

V36

They saw me
even more strongly than his sister
you think I concern.

His mother's lifetime his
still

first only from a desire to perfect.

Other people's methods
suffer because of me
at first only

busyng myself.

MAN

V 37

You know that from the very day
soldiers became aware
only man

marched out beyond.

"We have still
to meet you

as a possibility
bordering on
battle you have so greatly desired

I didn't know," muttered the old man.

THIS MOMENT

V 38

He was disappointed with my
many pictures
to tell the reader what

heaven is witness.
Persisting in his first
pleasures which were

so cunningly
a black or a blue
succession of ideas...

I am this moment.

UNDERSTAND

V39

Reading his manuscript were
women who
wouldn't believe

until daybreak.

After everyone was asleep
all the world

began rebuking
him. He forced himself to
a prayer shawl with phylacteries on

which he did not understand.

SEE

V40

He had not gone out that
touched by her
though

it began to rain a little.

In expectation of his most punctual
state, beautiful

mirrors intended another
out that day
though & find her harder than

& say & did not see.

A BITCH

V41

All called you "Don"
up the street
sometimes just before it is really daylight

out but could not see across
Germany. They asked
were many

expected to see
you do not feel better afterward.
They say a Saint

saw the son of a bitch.

DIFFERENCE

V42

Women all stand gaping around him
responsible for
being torn limb from limb by would-be

children and to ask
everyone
how they pity

women offered
without God's protection
a scholar who knows all the seventy languages
makes no difference.

GREETINGS

W1

I am grieved
he found that
I was a fool

so we sat down.

I had this
shape I knew lay buried in deep
mental pictures he had painted

upon us through the will of
his most beautiful song like
everything that has been destroyed here
to send back home with my greetings.

THIS JARGON

W2

Very early on
ritual slaughterer
began to argue

in the earthly Paradise.

For a long time until it became
child's play

I know this person you're

standing there like.

Standing there like a golem
children

used this jargon.

HIS PEDESTAL

W3

The case calls for conjecture
less ideal than
where

to turn
firmness in
a drawn-out
mirror that someone has

in order to praise the ancient
Christian
impression
from the height of his pedestal.

FOUND

W4

A crowd which had followed him down
gentle melancholy took possession of
who was quite able to keep things

roughly in order.

It was his own fault
he would be taken into
short answers. She said she

thought that in her eyes he would ascend
for the interval
he ate
among these & found.

RECOVERED

W5

There is something I haven't told
him for a long time
then is the significance of this.

It must not have been easy
times he would catch a glimpse
pregnant with double meanings and
notwithstanding the omens

when I was a wanderer
took refuge in
her. She knew full well
when the child recovered.

SEEING

W6

I can now begin to make proper use of
my interest in
memory of the elegant mannerisms.

Not entirely unprepared
to die at dawn, I
know what
internal police force

and with the best will
we might run through what we have
one by one they drew
no doubt to prevent us from seeing.

FOR YOU

W7

It was half past eight already
giving her son a kiss
to finish her coffee

too. He suddenly felt quite
fond of her
about fifteen miles from
a man who has been unfaithful

with her

in fact. She could not think or talk of anything
even in the wildest drinking bouts
either for me or for you.

VARIOUS

W8

He held a volume
well into June. There were times
personal experience

drawn down so that it
take an interest in
larger
literature

which
would cover everything
places all over
its contents — various.

WHEEZE

X1

The boy hurled a stone into
feelings to anyone
as dark as his own
in front of the house
watching an old silent movie.

The unpleasant
words formed again in his mouth
no longer
had been carried away.
One night each year
from time to time she would wheeze.

NOW

X2

I believe he was tempted
as she came
in the world where I imagined myself.
Not a person I could control
he had to maintain his indifference toward
a true world where plans prosper.
Some minor but definite disappointment
that entered her dull rage when she saw
marked me as his son. My whole life
being
felt I was now.

OURSELVES WITHIN

X 3

I am beginning to believe that this
was already
now, since his son
listened. The many-voiced song of
who could not be
passed through his mind
and I did not expect
words
distinguished in any way
when he had left
here we find ourselves within.

OPEN

X 4

There are those coincidences which
the mind freed of all sense
began to slap.

Echoes long reverberated
proposed to compose

our memories since the time
abandon

her luxuriant hair.

Far from imagining that the work
remains alone

bodies fidgeted. Their eyes wide open.

TELL YOU

X5

It would be too much to say
eyes looked so anguished that
youngsters gathered there
believe me, gentlemen.

Whether they took place before or after

a certain old man who was generally happy
saw what she saw and
she performed all that she was asked
at the end of a big deal.

Then he rose

behind your back, I had better tell you.

CLEARLY BELIEVES

X6

This was precise. This was significant
about the person

I believe

sent specially for him.

I was seeing

being indeed very much more serious
would stop

and his high spirits

emerged

to attend

father's principles that he clearly believes.

PEASONS

X7

There were so many
and
coming back to his passion for
time before he was able to calm down
down on the empty field

brought it all vividly
beyond civilian requirements.
Almost three thousand feet above
once, I think when I was
by a tall, dark brick wall
for the insane and other destitute persons.

SEE

X8

One can hear
it out in their minds
but by marriage of convenience
began his story. When they arrived at
help feeling that such arguments could not be

eyes glittered with
immediately returning
position
bought for
he could not imagine what would become of him
one can hear and see.

KISSES

X 9

Father was not in
precious possessions
yet for other reasons he was
everyone really
at least cursorily explained.

Father leaned forward but did not
doubt about what answer he must give
a girl in an office
concerning
what had been happening there
quickly under his kisses.

BE UNDER

X 10

Underneath it all was grief
he
got rid of.

Since no one knew the way
to let him go out

evil

he could not bear being.

They did not know

father got rid of

his great eye glancing with a sort
man should never be under.

HAVE

X 11

Not allowed to be present
enough
till our last meeting
one or two other
clearly in authority

need be, alone. But
who simply had the luck never
need be
quite so difficult, perhaps, as this one
arrested
for what importance can such things have.

BALMY

X 12

Water was lacking
and after much lamentation he finally
immersed in a comparative study
thought of the grape harvest.
Otherwise serious-minded men

tell where they might have gone but
without taking their eyes off him
with inscrutable faces
elaborating its
anachronism
air was balmy.

ECSTASY SUDDENLY

X 13

Children looked around to see where
a blind bear who danced
would go on forever and never stop
even in one's own
laughing. Whereupon

happy
children looked around
his master with one eye
shaking with laughter, holding their
only God, whose glory fills
a kind of religious ecstasy suddenly.

DEAD

X 14

They brag that their
place in history
spreads out
ungodly chaos. Contrary to their
illicit joys, do you not hear what they

no longer read even in the Palace
renowned for their antiquity?
Outlines no longer conform
urbanity when
a wink of your beady eye
will strip itself from your dead.

ASK ME

X15

May I ask you why
rioting through his brain
in hell all laws are overturned?
Wasn't he? Making his rounds
memory of the past touched

a last equation to
his neck carefully and frowning
demons, who are made in hell...
asked me, was I writing poems? About
this little trick
fellow, if you ask me.

POINT

X16

My father had read
most often in a Russian
and German
trying not to listen
I thought. I'm not the son

he looked slowly away from
because sometimes
home again
everyone crowded around me
off balance from
being used as a sort of jumping-off point.

HAS BEEN

X 17

He meant to continue his story
where words and silence
wait for someone
worthy of our attention. When
your wish has been granted

alter what they try to emphasize
with men more learned
about his father, an obscure
hero of the day
in cold sweat even while
your wish has been.

BEING

X 18

It was a long time before
his face lit up
her voice.

Actually red
to enter a room

late once
he had scarcely
to worry much about
morning
with her legs apart
for the gift of being.

HIS WIFE

X19

He was captured when he tried
who had been
able to connect with the standard
partly through interest.
Sometimes she would go

and many of the old inhabitants
remember their use
with blood. Her
heart guided
some very funny words that
give the news even to his wife.

I

X20

It must not have been easy
to pray for the salvation
surrounded by
logic. Ever
sound

as it is to the four winds
I feel that no help will be
turned away from
here I am
every word
like the others, and so I.

GRAYNESS

X 21

I sometimes relapse into my
narrow
time, provided with a generous
impression, she said, of something.
Reduced to a pile of rubble and ashes

on sunny days only
twenty years ago just the same
terror

he would preach on
I do know is
only a faint grayness.

A FIGURE

X 22

Canted at rakish angles
there was one that looked a bit like
where to begin or what
love. The transaction
part

deep and buoyant released
earthly bodies but still possessed
just one. She isn't ready yet
if it were hauled out
all the way to the end
she could be a figure.

AN END

X 23

Everywhere I went
mother looked down at
and was on streets filled with color
father did not like
as tenacious reminders of life. They fell
of course, there
pointing to the walls
though for a while now
out of it. Of course, there is the chance
her eyes were dark and frightened
father's work was coming to an end.

NORMAL

X 24

Accuse them of the responsibility
that I
alone, not in the several characters,
serve God
quietly and comfortably

more. He was, further, opposed to
a condemned man's flesh. I saw
who looked into its soul
reality that had become rarefied
with their miniatures.

Many persons pass for normal.

ME

X25

I had no childhood
but for a battle. He had gathered fifty
urchins sometimes come to
impressions and anecdotes
in my daydreams it

succeeded. Now
do I ask where
everyone's solitude would be?
What his parents had kept from
the King surrounded by his court
does not agree with me.

HER GLAD

X26

Anyone promising good times
by whether they took place before or
sat lazily on a wooden bench with
bits of bread and rolling
everywhere

I do believe
then as
themselves no more.
Because it at least put me to sleep
still in her hands
more understood what made her glad.

FEELING HER

X 27

She was dressed in a close-fitting
consciousness of innocence makes
nothing before this court
just as
that camera you swore you didn't have

and all
fail to work.
With a highly ornamental
devotion
she now decided
who for the moment was feeling her.

OTHERS

X 28

A shrill bell rang
Palestine here.
Full of anxiety over her fate
too refused, too good, never
bleed and make another bleed.

A sense of disappointment overcame
memory
he awoke from
to represent his relationship with
her more than all
others.

GIFTED

X29

According to modern custom
there
deplorable
at this instant put an immediate end
with more fatal consequences.

Now

here then he
may perhaps relate
a gentle sigh
unless it was guarded by some prior affection
with which we writers are gifted.

HIS PERFORMANCES

X30

He began
but her voice
wants to get back with orders pretty
magnificent and famous
perhaps he would remember that

ecstatic awe for
in this new ignorance
their eyes glittered
virtues
she had evidently
musing upon his performances.

THAT INTERFERES

X 31

I come to tell you that
this reality
parried again. But give thought
up there, she said with a frown
alone. It must have no other purpose than
can
confess freely there's
imaginative reality which existed in
your mind. Why
I existed
destroys everything that interferes.

HER EYES

X 32

She exchanged light
when the great Buddha was
in all their desires and
appears to
perish. Was it not what he had once
come about? Have you
grown old, old?
Whom she had once loved so much
waiting for him to
call them illusion
saw the life fade from her eyes.

SIGNATURE

X 33

We are sitting on the ground
only to make fun.

Nothing else
strikes him

because he was never good at history

I see

as responsible for my silence
from shouting
once the world had.

This evening I'm almost convinced
all these operations bear one signature.

SHE WAS

X 34

He would pay a silent visit
with the basic knowledge
she did not even raise her eyes to.

Where it was
accumulated during

imposed abstinence
butterflies were always
shamelessly
when his personal physician
herself had
to think that she was.

APHIDS

X 35

Well, hell,
neo-Moloch
custom work
preserved up-country in his
complex is also responsible for

a ready-made
town where anybody would still be around
Americana. It was after midnight
when I ran into
him briefly, at his congealed
East Side, eaten by lice and aphids.

ENOUGH OF

X 36

The magistrate was half hidden by
her from there, gifted with irresistible
diplomacy. For
much
like somebody to understand — somebody

sea-sick before next
one must — don't you know?
he says he had been afraid.
They departed very much
like this, with all
you don't think enough of.

YOU

X 37

He wouldn't believe it of you indeed, so skilfully had you on the way back seemed to resolve his surroundings. The sight stirred

up in her like an imperishable promise that of course she would come to draw his profit from facilitating social dependence. Beyond this a sense of pleasure replaced her mean to make you.

WITH BLOOD

X 38

An enthusiastic whisper he had not expected from all growing with the luminous eyes that

grasp where he was sleepless energy is disagreeable and incomprehensible from having no news more intense his left hand was covered with blood.

WINDOW

X 39

A tall white stone building
grew very still and waited. I had
peered into it
with a sense
where I was.

I wanted
out from my father that he
heard only silence
clearing where I now
had in fact known
the open window.

CLEVER MAN

X 40

I am really better without
mystery that penetrates my very soul
where the temple secretly hid and
presence, as he knew,
says I am to come

in his eyes.

With his deadly impassive manner
some

see the cut-out
world was enveloped in one
far greater mystery to me than a clever man.

SPEAKING

X41

Let it suffice them to say
he would willingly have sent
on a nightcap drawn over
day, for, when the weather will,
they are in

any motive whatever.
When the weather
was perfectly
an adjudged case
it is not perhaps easy
to imagine they had by mistake been speaking.

SHE FORESAW

X42

She was listening again
infinitely less dangerous to those about
and pressing her.

One could forget all else
she would be if he asked her

over a forkful
from their range
his nervous gaze wandered
carefully out upon.

Deliverance too enormous even
let us say, she foresaw...

WANT

X43

I do want to be with
the sound of children throwing snowballs
months ago. I said
there's a fate worse than death
about Shakespeare and psychiatry.

Every noon, always inviting
she was
every woman
made purely
I said to be careful
we get what we unconsciously want.

MY GRANDMOTHER

X44

He said
what awaited me inside
sorts to the dark core
showed her a drawing and she looked
alone again with one

here when I was growing up. A man
said to me once that
again with one of his
day, still the light
show in
my grandmother.

CHRISTIAN COUNTRY

X 45

A faint noise on
prescribed hour
to be with her
words have been our
hope and anguish, no longer

an unreal universe, in unreal times
made every effort
now that the latter lived
at other times
still. Whoever gazed into them
are living in a Christian country.

HIM

X 46

Outside the Palace there is
love that
practically beheaded
we'd be rid of.

Man

was far from expecting
all this & knew already
panic-stricken at what
members observe
he did not know. He knew nothing
described him.

DON

X 47

The wandering Jew passed through
as she obeyed spontaneity
of love they would exclaim good.

Floating in
old age disturbed by

one occasion she lost her
inlet obscenities
and touched with the solemnity
that one could ever
exchange for an old age
they no longer called him Don.

TO

X 48

The next day
treated me to a lengthy explanation
he can no longer raise his
hierarchy as.

Yet the doorkeeper has

at least not
filled with obscure irritation today against
only a man like you.

The doorkeeper has other
faces of many women
he treated me to.

HIS FRIENDS

X 49

We know what
his presence
always predominated in each
town. From his window
where only the soft light

soldiers, opening
one, would take
you realize that you are not alone.
I seem to live again those late
sacrifices
to his friends.

TOWARDS US

X 50

She was quite a pretty
pilgrimage out of curiosity
he went over and removed from
faith. For this reason
they won't have to say the Kaddish at

metallic clatter on the pavement.
When occupied with his studies
as they come
dancers, among whom, perhaps, was
our Holy Father the Pope
then, turning towards us...

HAD

X 51

The boy's mother had begged
for something new, exciting, something
she is clearly
night after night
in her

blink

or so it seemed, from his.

Sticky with tears

they did not

find the strength to go

when the Communist Party had.

AMERICAN SHORES

X 52

Even though the dowry had already been
under the handkerchief
from his face
again
without a sound

or

etcetera, etcetera

could

blind musicians who sat on

people fussing in vain over

abandoned American shores.

DEJECTION

X53

Magnificent explosions and orders
driven to the wall you'd put
in a different
assumption that
begins with

hell for their
time

that a child

and you shall see

progress from the mere form to
trouble, pain. Dejection.

JESUS

X54

I do not believe
myself

that there is something afoot, though
this is

for a short half-hour.

Our intimacy

only God could claim

out of nowhere, coming up with

a few books, balanced

when I see Schatz leaping right into

Our Lord and Savior Jesus.

TO REMAIN

X 55

I saw a picture in
cold winds that stripped
my face. The porch ran
almost
so I would never again have to see

why my son paints naked
talk afterward
when she saw us.

Across from the window
a little girl of about three
also doesn't want to remain.

EYES

X 56

When he had checked the wound
three hundred square yards in size
his family would wait until
it occurred to him that
oppressive silence hung over

a human being
man lifted his face from.

Their seasick mother
finally woke up
for some
could not be rid of those accusing eyes.

HER

X 57

She loved to listen
a moment looking bitterly on
and could call him to account if
he pressed his face upon
her eyes.

of paper.

They could easier deny themselves than
let the thing
facing him
and their works also would be hers
at the moment because he made her.

BEEN DARK

X 58

There is nothing to be done with old
stains left by dirty fingers
in a most tragic manner, & feel.

The Mouth of God

wanted only to consult your taste before

communion with myriads of angels.

I have lost my faith
to throw any light on
and quicker
since you left
days have been dark.

ALSO

X 59

Shadow took her
liberal arts and
man who had raised his murderous
pattern. Thus in
her everything was

but
written away
matter if he really
was repeating something which
laid a finger against her
first flight, in the shadow also.

FALLEN APART

X 60

A stern look
had taken her from
one day
over the idea that
making love with

fact happened several times. On one
he was looking for
find anyone who remembered
once she had seen.

On her eyes
his private world had fallen apart.

LOUD ENOUGH

X61

Since he had neither time nor means
much

is ridiculous as well as impudent.

An exaggerated angle for
distinguishing precisely between them

this time he did not peer out from
your pardon.

A starving man
could not help

to tell you more about
his voice loud enough.

NATURAL

X62

Other incarnations

for the sentence that contains

his life, he should have considered himself.

No one knows

but what they saw was

miscellaneous drafts

as self-justification

any man is

first, that that virtually instinctive

commentary on the commentary

not still in the natural.

THE RACE

X63

Following day
with mud and
dying with laughter
he has to be killed.
Those who want to sleep

would simply say
he composed himself
before anyone came.

He becomes a priest so that God will finally
after his first meditations
where there was no trace of the race.

TO

X64

She was almost in tears at having
always been

on

as he grew older.

Because he knew she loved him

one could see above
to gradually realize one's God
could tease her about it.

She was

so that the blood ran into her eyes
the lad was too upset to.

BOUND

X 65

Thoughts were mostly of an intimate
angel in heaven
after his own marriage.
Let him have his flirtation
heaven had proclaimed

a friend. After
days in which she
arrived to look
however, much had happened
he could have
now that they were homeward bound.

BEHIND HIM

X 66

He didn't dare to make his voice
work. We who were his friends knew
who most industriously bring
a miracle that only one
lying here dead and done for

the other
was ready to exchange jokes with them.
Usually at this time
it almost looked, on closer inspection, as if
not a single word
left traces behind him.

LABOURING HEART

X 67

He made up sympathy felt on all hands for a man who finds himself slipping away. But the vision exquisitely

would find him.

Thus must every upright man turn away his eyes a minute certain death of Christian love as much startled now drove on his labouring heart.

RESUMED :

X 68

They stick a man who does it round after the old stuttering next moment. — ah, listen to this she then told with my

economy of heaven

I'm dying for.

That's our national problem behind their chant the vigilant day I caught her in passed. He resumed :

?

Y1

I had hardly freed him from
no fewer than three or four
railings, and utter
muck, in the hope of finding something.
I shall see them again. But shall I sleep
a few hours
he himself was compelled to admit
that God alone can fill?

HERSELF

Y2

There was something rather "doggy"
to his womenfolk
cross with the futility of the question
blackbirds shrieked and scolded
so, of course, he'll suffer in there
viciously, putting his head on
where he could not see her but
as irreproachable as Britannia herself.

HIS HEAD

Y3

He is quoted as saying
at this point that I knew
the hideous unfolding of a nightmare.
We will never know
more so for
the effusions in porcelain
memories
I told him not to raise his head.

FRENCH SAY

Y4

More than any other
covered with beads of sweat
always to feel sad for the bad
were moving faster than I had expected
outside. This
needed to be adjusted.
Who played what and when
know what the French say.

HOW TO

Y5

My son is sleeping. Let him
alone on the great terrace
sent him to get in
my mind
when the time came
insufficiently.
Often I stopped dead, opened
first. I showed my son how to.

PATE

Y6

Behavior won him a four-year
craft of the ungodly
by the mosque there
now that she really had him back.
They might languish in
justification by faith alone, without
a man of good standing and
attention drawn to a shining bald pate.

FRILLS

Y7

More than they had done for months they ran together to a station just opposite under this sun. We pass thankful for the prudent habit he had expected from men of great knowledge. Now he'll lean forward with manifold pleats, frills.

THIS

Y8

The flow of pictures did not cease for his miraculous rescue from childhood, he said, he used in this especially favored place. I had learnt almost nothing from doors behind which our childhood already under construction was still holding this.

HE JUSTIFIED

Y9

There is a incomprehensible assurance, from right to left. At this point what difference does it make anyone's noticing? I am resolved to suppress those whose sun gives men fever and captain with his harem for the millionth time he justified.

YOU HAVE

Y 10

Now that you thought you'd got him
who held the heavy chain
is to be expected.

Just lay wherever
slow and dreamy
endowment

think so, since he kept forgetting everything
you have.

SHAPE

Y 11

He had somewhat freckled
a number of little
living warriors after the likeness of
who would become known.

His father set him up in business
freed from
painstakingly documented renown
with its true name and exact shape.

GOING

Y 12

Will you never cease tempting?

You started all this
toward the voices
now he knew.

Let him see you
had already reached the monastery.
Perhaps he will take pity
where he was going.

GROWN

Y 13

The smell of coffee began
people
from afar — Good Friday arrived
midsummer. The coffee that came up
now began
people in these parts
and very likely Mother would get up too when
that daughter of yours has grown.

WENT INTO

Y 14

Guided by instinct she
a highbrow Jew from the West Side
when he entered
my neuroses as I grew
happy full cheeks. I figured that was
while
here. I too was trying
instinct she went into.

FAR ?

Y 15

A huge yellow dish lay in
quietude
reflected from all
up. He felt no stage fright but
He,
He saw her serious alluring eyes
hauled upward by
heart in the silence. How far ?

THERE

Y 16

He pretended that
this was a flash of lightning
then from Jerusalem
in our hearts. I talk about
one of God's
reflected as he
can't last long there.

WITH HER

Y 17

Don't forget
this difference
and form
heavens closed again
in the people of Israel.
Naturally I never consider myself
with her.

LONGER

Y 18

Wits scattered by the spectacle
for miles farther afield
knew that henceforth
despair. This
hitherto I have
in outlook united
no longer.

INTONED

Y19

Painstakingly documented remount
of a kosher
man awoke and set out on
his followers
the first and last parts. Its style was
elevating him to
soft, falsetto voices intoned.

TACK

Y20

I had a lively time
with whom I should have been
after entering so deeply
the dial tone.
There's no art to find
on this morning
we'll take a different tack.

TROUSERS TOO

Y21

One evening he
unbuttoned their
stories about the war until
staccato laughter of an old
sort often found in train stations
leave things
on his trousers too.

BASE

Y 22

Before I can be free
may one speak of a voice
to begin?

Fortunately I have no opinion
to buck me
even if the voice could have
with equal stability on any base.

TO ASK

Y 23

Where are we
trembling that he
often in fear and
slaughter begin? The hungry
question of time
I didn't take my eyes off
told him not to ask.

AS HE

Y 24

He knew that his father would make
what remained of
both unconscious. Lighten up!
she cried. The child
felt only an ache
to refine them also out
together as he.

GOING

Y25

White walls were decorated with icons
when she revived
almost every day
so that it seemed only natural
to make small talk.
Complete possession of the little
she keeps on going...

WEAKENED

Y26

To sleep the sleep
from time to time a small
picture must represent something.
Big stone men no longer
as faithful as they were
on this horrible winter night
could have weakened.

DOWN SOME

Y27

I had better things to do
in the restaurant opposite
when my cook
now I felt a certain respect for
really is hard up.
Mannerisms of the theatre, rather... provincial
again, look for me... down some.

LOITERERS

21

At roll call they
join in and take
no more time. He ran
for the couple
at roll call
when evening set
privileges that he now enjoyed.
Sewn together at random

the boy's mother had begged the teacher to
reason why ceremonies might
rid him of
their companions, or loiterers.

AS I

22

We held court with our
last spoonful of
consequence he takes his vile coffee.
I remarked to myself that
during several years' heroic service
our uncertainty was augmented by
he lit a pipe
on the contrary, well pleased.

He would be
at various distances in various directions
more unbelievable than perhaps any
I counted as I.

AGAINST

23

He escaped the woman
and everyone became his
hell with its devils.

Sight of it filled
his motionless eyes staring directly in front
to find
like human beings
from the east

quivering. This was a new sign
therefore, forever
far away over
rock she had been leaning against.

MANY

24

Many
everyday words rather than shocking
search out that memory
after a slight pause
to offer this curious specimen
and
one particularly trivial incident sealed
by it. The freeness of my "free will" is
said with an animation
rather unaccountable
but so bewildering and entangled
I was one of the many.

THE PRICE

25

The thick smell of his former employer all hell's going to break was responsible for she poured herself a bonus. Turned out he was into sub-routines effectively absent.

Voice on from his former sunset unfolding decimals makes the price.

THEY WERE

26

All I remember is that they pieced together such a tale about this actor.

Then at last I shall know what really must get in touch with his finest hours as it was perhaps time to bring all the rest of our silent way homeward

from his mind! He was entirely not-withstanding her name almost simultaneously that they were.

SILENT

27

Very silent
learned to spit
chosen invalid repeat
one doesn't have
for too long.
Now mostly
he has finished the page
that his uncertain eyes.

Yet even if
leave-taking
a troop of apes
were now mostly very silent.

MAKE IT

28

Know that
once anticipated this challenge would
go into the world
time with pious
shilly-shally.
In death where, presently, all
became separate
I understood what emotions had

bibliography
manic

from these suggested arrangements
to make it.

TO BE

29

She did not understand
shame
one bright winter afternoon
her marriage
language
exclaimed another,
Covering them with
history and human races

a few days later the father gave
all. This was, after all, their milieu
like clouds
there he believed to be.

CLOSER

210

It was plain that this man
bearing a letter
contrary to all poetic justice
carved
the name of his fathers.
Mankind has conserved
room at
another image

our present-day military
finally managed
over this whole country
behind him now, driving him closer.

MANIFESTATION

Z 11

Several goldfish
can only wonder what new power has
kept him incarcerated for
aquarium
was only a dream
he clung on to
in which
turning round

his words strike
one of the fishermen felt
at dawn after
organic and optical manifestation.

THIS VICTIM

Z 12

Majesty filled the air as
sleighs were gliding round
my head.

Round
emotions run high at the sight
returning to my own house
he was
mad with rage and

I have no doubt
carried away
fabulous sums
in honor of this victim.

CHICAGO

Z 13

After a while
I can write poetry again
saying
you look as if
to understand what
look.
I contemplated something
too far. Where were we?

You wouldn't believe how
and what it felt like to be me
now that I was aging
all over Chicago.

AGITATION

Z 14

Most certainly
ascribed
too Christmasy
we had a lot.
Bristling with
thought we should get to know
it was
static. Poet

attracted instead by these noisy
young people on the make
didn't feel just now like having
pulsatory agitation.

BE SEEN

215

Be outdone
in the hope of finding one
prematurely at all events
done with
this far-off voice
I could do as
gladly have
some of my memory

said for it. For the night
looked at
and shut into
circumvolutionism will be seen.

WEAKNESS

216

I never saw
people from the photographs.
To compare their degree of clarity
taken up
with everyone else's pathetic efforts
I had
now understood almost everything
resume his story. I

told him the secret
had only just been completed
and my eyes
took at first for a merely hysterical weakness.

CAN DO

217

I'll pay you for this
with full
women running in the stadiums
most dangerous of all "art." Meanwhile
only a fool would mock
experience dynamized into
senses at once
that till I see, smell, know and can
drift. The cinders are
to a more distinguishable degree when
proven truths of tradition
let me see what you can do.

HIMSELF

218

Walled up
while he made himself useful
I am not there.
He can be relied on
to take yours and draw you away
till the day he could vent it
near
with gratifying results. But
you'd think you were in a studio
I don't believe
then I'll let
him not to dirty himself.

TOGETHER

219

Just like the
new sense of esteem
he proposed to compose his famous
tempests despite a sky full
up and half-naked
they unlaced her yellow
horizon. A powerful old man
scarcely deigned

where he proposed
some wild
woman he once met long ago on
signs necessary to join the stars together.

HER EYES

220

It is widely known that
entire villages were burned
or a trumpet blast
dying at the age
under her
told him not to raise his head. I
picked clean by buzzards
with nothing

after their meal
became the object
both more dizzying and more
shone brighter than her eyes.

HIGHEST PRINCIPLES

221

I could still apprehend the dying
read aloud
out
to whom I myself told.

Dead can move back and forth as they
repeated several times with special emphasis
when I had taken up
useless cliché. All

open to catch a faint
reason for
that I far outstripped
as one of their highest principles.

STITCHED

222

This whole country
witnesses
what brought you to
was of the same
Empire that was
more about magic.
Outright impossibility
had been in pursuit of

eternity upon their first arrival.
A hundred witnesses
presuming there is such a thing
are stitched.

DEPARTURE

223

He's a man who's quick to
look
after day
to hear you say that
with his black
days
looking at nothing at all
you

noticed somebody
who was reputed
in Paris while waiting for my uniform
after my departure.

JUSTICE

224

Men
were running. Like automations
our eyes searched the horizon for
in front of us
protest against Him
came back. At last
men

began to undo

with them, at last, our
terror on
work

I doubted His absolute justice.

VARIETY

225

They already had
noted with approval
the blood shed for him by Jesus.
Somehow
there were those who
buy any book
paragraph that contains
victims of his disinterested

Christ.

Eternalized, somehow, by terror
that billed itself as kosher
first, he must invent a variety.

KNOWN, WOULD

226

Order

succeeded the fit of tears
and you can get it without a ticket.
Without a ticket at all
on a quiet Sunday
in their own room
enlarge the final peace
consideration for his parents

live here a long time after you
die too. What was
all he desired was
and, had they known, would.

BESIDE

227

Women talking to
you could never have
a living soul.
They do better in this
age of
talking to each other about
a single panorama
I know beyond any doubt

frozen stiff. It was never really
you
all agog with excitement
I rested for a while on a park bench beside.

IN HEBREW

228

He wore glasses, and had a long
train of thought. I also had
perhaps
that gold which would enable him to
maintain himself fruitfully.
Then he took up his
dancers, among whom, perhaps, was
an old man

who was now dancing
for the barren land
when evening came, after saying my prayers
in Hebrew.

SAW

229

I next asked him to name
a name later Americanized
violently against
Indians who were languishing in
his regiment. We know about various aspects
as a knife finds its mark
and I come
with words

for his son.

Others trailed eagerly behind
he said
on this occasion I also saw.

A MAN'S

230

Man can shoot his
value to life
as you please forever after
with little grey eyes
and the Lord was very much
in their sequence.
Or as you please
rather quick

the form of
being always wanted them
brought into sight
high let us say as a man's.

OVER

231

I remember, for instance, said
faith just when he needed it
until we ourselves emerged from
the judgment
time. When I got up again
in those
following his old custom, he might
wait to screech at

morning. I can still see him
at a dizzying depth below us
past which the railway line runs in
showers that now swept over.

BEING SENTENCED

232

God
nearly as I could make out
was always called over to
hope
when no one else felt
in darkness.
Inexorably
reddish eyes, little and cruel, woke from
the first
of flesh-and-blood
which God had given me
upon being sentenced.

THERE ?

233

There is still no possibility
interpretation was
eager to please me. I made her touch
all the more desirable as
truth remains wholly uncorroborated
and far from imagining
news though now half-a-century old.
Half-seen in

where she lives unceasingly
she started out again
did I say hopeless
where I come from there ?

TELL

234

I like myself
in a discreet
bearing along wideleaved flowers.
There he is, sure enough, my
likeness to whom the faith had
turned his face.
He was and felt himself the father of all
laughing heartily

for goodness' sake till I sit down.
Like a hot potato
bridegrooms
know what I'm to tell.

OUT

235

We crawled through
joyful
engagement, with these words.
In such
theaters I have often watched
an outer crepuscular dimness
quietly
at least on its first advance

and will be forgiven for everything. If
in such full stride that
intention was to get up
I had to get my team out.

FOUND

236

They could see in his face that
exact likeness of the long-lost
books
and so taken aback with shame
helped to make him
who would become known.
Man worthy of the thanks
later held that

hand on his
her son had asked for
when they drew near, it was plain
books were found.

FRENZIED FRIENDS

Z 37

I did some
ways, which like the ways of God are
forever — and behind me
after my arrival
at this point
where one has
only a few days
protectors

in fact had caught our last
Judas. Beside him
in hand, were
a dozen frenzied friends.

AGAIN

Z 38

My first thought was
extracted from his
way back to the real world. He
regretted my vulgarity as soon as I had
let him be
in very different ways.
Fat and inoffensive
I was not aware of being

rather caught
up against the Revolutionaries
going from bad to worse
as he suddenly became a child again.

THE CEMETERY

239

Carrying a large
picture of our laundry
those related to him
spent the rest of that year
jumbled up.

Our laundry
looked as if it were
brought from home in his.

My imagination for a long time
woke late
and it dawned upon
all the bones in the cemetery.

EYES

240

At one the early news reports
suddenly become very
narrow
to convince his wise interrogator
they could have done without those
he reached.

Life has to convince
this one too, after

only a few more
as before
saw that the child
would have closed their eyes.

WHAT

241

Absolute

Troubles which were common property to
you know what
was
did not deign to notice
everyone thanked God and fought for places.
So overpowering
upon the subject

his utter and absolute
vocabulary gave
a man who bides his time
you know what.

UNSEAWORTHY

242

He was shaved
and to the involutions
chosen was
wallowing in his own
election. Ten days elapsed
now I have come to offer
some echo of that pleasure.
All around without ever once striking
demanded of me
the image he desired
other and became
unsound, unseaworthy.

HIMSELF ?

243

I can think of no better
since then
for is it not
with impressive regularity
"just one?"
I swallowed all
every European must have
openly flattered.

Is it not better to live
at prices that disarmed
my ill-feeling against
the Emperor himself?

SILENCE

244

A funeral march which stirred
long expeditions
with a great many little mother-of-pearl
remarks to his wife
and my childhood wish for everything
said
I can see now....
Who was exhausted from
several photographs of his birthplace
while I was still
she saw me standing in
a profound silence.

OBSERVATIONS

245

In front of us we
delivered such an immense wallop
his chest shook terribly
and sentences in their original word order
do so

know. Take him
back to captivity
that I must let you see

things looked as if they would like
a reckless thither-and-hithering
blackness I staggered with
his favorite observations.

ON

246

He found himself out
some time, to put off
tormented half-sleep. And again
one can call them
so that they could hear once more
people crowding outside.
Times in his dreams when
screams were to no avail

must be something about
becoming the master of a legend
with every new setback
he keeps an eye on.

SOMETIMES HEAR

247

I cannot give any precise
kind of thing that had been fashionable
at a whispered command.

To perform some good work beyond
beautiful eyes
purpose
whom I would surely never have
felt.

Gone away
they all bore the scars of their
appearing in constant succession
this day I can sometimes hear.

50

248

The fact there was
exploration and cultural encounters
because of her
brought to symbolic resolution
feelings drive these bleak
early years.

I felt my gaze drawn back
there was to be

a common theme.
I find I get along best
years after she wrote
the body of writing is so.

YOU

249

What I had foreseen
in spite of
eyes which never cried
yes, I know.

A moment I
was to attack
as soon as we
condemn

reasons that no longer matter
brought smiles
with words
I want to tell you.

LOVE, THEN

250

Consumption of fermented drinks
in the form
most bizarre and disconcerting
make-believe
all this
would have been quite normal
cried a guest who
flags when the wind drops. Men

think they possess
themselves out over
her dearest dreams and illusions
can give birth to love, then.

LONGER

251

One can pick out at quite a distance
in time
two previous occasions
must also hold.

Talking
got
now no longer
tonight. This may have been

the solid achievement of
all
minor English customs
& was no longer.

"CHRIST"

252

I have no idea how many stars
met with any great acceptance
at that point
which I know very little about.
In the upper story
who is so unlike
a dead body sprawled on one
rooftop nearby

you see
very respectfully takes
papers which may
"worship Christ."

What a joy it is to
get up
beyond the insinuation that I am
from all other notions. But
there is a record of it somewhere
perhaps one day I'll know, say
eyes
not quite the same stones. And when
on my way
that is probably what
they can find
up and go.

MIRACLE

Somewhat beautifully all
excellent English
encouraged
something unspeakable. As
assurances of the best
lay
and became
necessary
confusion, a reckless
crowing child
figure
relates an unbelievable miracle.

BEGINNING

255

No longer hungry, she
flowers
on the vantage point
"word," he said to
her
and that, I tell you, is enough.
Jesus
her only son.

just as he reached
Who is above you
I also want to speak
over again from the beginning.

SIZE

256

This is the end
I next asked
of dust that
you are.
National
Commerce with captive women taken
neither for going in nor for going out
will never know

who had a burning desire to learn.
We know about various aspects
you are unworthy
to be of gigantic size.

IN MARCH

257

Turning towards us, he said suddenly
we shall live as near as possible
and one morning
most fervent prayers were
like it. I

touch even those who
first robbed and then left him
boys of his own

before God
brought
all we know
one morning early in March.

STRENGTH

258

It was a Sunday
we were
late and there
to pass the time
I could only follow
her

asleep. I do not know how
we should die soon anyway

and without another word.
Her little boy
punishes us relentlessly
after gathering all my strength.

TOGETHER

259

He didn't leave his room for
she should be
on the couch
that
close
them. Not a muscle
understood the reticence
cut off any possibility

ancient conditioning rewarded daily
as they
could no longer see her
well put together.

SWEETHEART

260

She never actually got
the film business now
from a man of genius. Had he
what I thought
people have
and why
perhaps
in hot weather she stripped herself naked
to settle
we could arrange
this art stuff
before her school-days sweetheart.

NIGHT

261

He saw
wilfulness in
soul or
eyes with a nervous
accident. The company
smile soon faded from
her at something
moving with tender

hope for not like
a woman
English critics, perhaps, would recognize him
come that very night.

WILL WEARY

262

All was still
well able to do so
as he had
my side. At last I began
probably what is
instinct or from its observation
in his investigation
never move again.

All the same
this cannot possibly last much longer
there as other vaults even deeper than mine
perhaps he too will weary.

MANAGE

263

It had begun to rain
and the tiger's eyes
could, alas, experience
dawn. At present
time I manage
all
more worthy of existence
there. Far from

those hallucinations caused by some
in earnest
like Isaac offering himself up for sacrifice
I manage.

REMEMBER

264

Ever closer together
we looked down at the city again
almost devoid of human
time. I
now everywhere falling into decay
correctly
might have thought it an eternity.
However, it was different in

his childhood
country estate to which
interminable hot summer weather
called, as I remember.

IT SEEMS

265

Lost in a desert
erected on the roof
of all sense
another explanation which suggests itself
finished his story.

Skilfully
broken at his feet
two or three more

again met up with each other
willing to risk sensational perils for
him
or so it seems.

HE - WHO - KNOWS ?

266

He examined
the crowd that streamed from
their powerful secret.

Balance for
those big
had devolved
fear, oblivious to everything. She
may be a joke or madness or perhaps even
required.

Who
then politely taking their seats
continues he - who - knows ?

NOTHING

267

At last after long years in
metallic
time before
fire and ashes and the approaching
remember, she
was able to calm.
One quiet Sunday morning
remember, for instance, that

as far as
you could make out
she was also strictly forbidden to
almost nothing.

SANK

268

He didn't dare to make his
practice
voice loud enough.
My fine son makes up
murmuring blessings
I'll go away immediately
to
like a healthy man.

Back no longer like
my flourishing practice
of altering other people's methods
his head sank.

STYLE

269

Old black iron
engines would tear me
you see in
dancing backward on his
Honor. So we drove again through what
afternoon I was
the man who gave
terrible modern complexity of
teeth while dancing
forward with his children. He said
I was to have taken
in its tinkertoy style.

AT

270

Information that was of much help to
presumptuous man could not bear
him. A few months later, I found myself
as
double sacrilege, first from
death and folly
in wait for him.
Jewish

thought it
seems impossible
everyone gave him free drinks everywhere
that I might seek refuge at.

CONTINUED

271

Now I understood why
one could possibly
give death
his right hand. In
every one of us, I am sure, was
a man's life or his soul
as white as
he who has killed

our comrades.
I'll kill for only
those who have
convulsions he had continued.

FURTHER

272

Suspect for some months
fear had suddenly recurred.

Her

presence at
a decent hour

did not press the matter

I believe

perhaps some childhood

further.

To begin with, her
immediate feeling was that
I would go further.

SAID

273

I who had said I would
close my eyes
from being
have always that resource. When
not blind, she said
she closed the door behind her
seen and
it will be even better

it appears. Or to serve a purpose
soon
she stood gazing up at
good, I said.

PRAYERS

274

It was like
always
by the light
of a limited extent.
When an operative artiste had fallen
upon his cheek
I think you have
what birds were

of fading tenuous sky above the waters
for yourselves just
like waves
remember him in your prayers.

BIFURCATED

Z 75

The fruitless search for
joy in work and sleep without
a reflection of
curious tenderness invades
last remaining rocks while
this horrible winter night
died away silently. The windows were
mysterious like unknown deities

whose only resource was to
all sublimity men have
for a cool
bifurcated.

THESE MATTERS

Z 76

When there is death
either in body or soul
she would wake up to find
his affinity with God.
Her face was
never without
an ecstasy of anticipation.
Even in his most expert verse

all this is certainly
some dark impressive rite
wrapped them both inside
consideration of these matters.

Arme crossed like a
man less observant and sensitive
this time he was indeed
coming close to the perfect.

Engineers who worked all night repairing
their eyes fixed on him
in front.

For that matter, he could easily

address

who came there to hear

of a mysterious force

most philosophers exhaust themselves in.

FATHER'S MEMORY

Intricacy was unnecessary

in a flophouse

world but

hot with turbulent

haranguing himself to keep up

I knew that

he was a bully. These

agonies of love at my age

he said

keep

and fed himself

in old age my father's memory.

YOUR PUPILS

Z 79

They could be
much against my will
when I mentioned him.

It was
the written word
before
it was like a hurrah.
I find myself beginning to accept

our consuls down there
when they
despair of ever knowing
one of your pupils.

ENCOUNTER

Z 80

I felt that the last
rather terrible voices
then
one day
got a chance.

There
the skullcapped dignitary turned
queer-looking almost

apparently being
somewhat primitive
whenever
possible, I dare say, to encounter.

STAGED ABSOLUTELY

281

Lost in a desert without
anything except the dead
whose essence cannot
compose his famous proclamation
to dust? Boredom and eternity are
the two most remote points
his historiographer
greeted with cheers and shouts. There then
you & salute, you whose existence
sits down by his bed
which, let us hope, shall be staged
absolutely.

AT LAST

282

I must have had
on the one hand
great confusion coming over
such conditions.
Not needing to go any further for
this
perhaps indeed I
cannot lead

in spite of all
accustomed
conditions. Come
be quite dead at last.

SULLY

Z 83

Here, tonight, after
a familiar
moment that I repeat
he came back
to think about anything
perfect. With one quick look
originators formulated
and then filled me

they had hired to drive.
I am looking for something more
perhaps his
act will not sully.

OF ESTEEM

Z 84

Together
at this late stage
our hearts
shall be in no fit condition to
forget the work.

One
after a certain age people were
I think we gazed at each other

without stopping. But perhaps I am
being left
all that
help and expressions of esteem.

EVERYONE

AA1

If Jesus Christ be
asked one

time to time
transfixing that
tone of the provincial
which might ruin your
discussions at once
several times over his
happiness and his career

you are
as everyone.

EXIST

AA2

We should have needed
song sadly dying

just a shade lighter.

We've done nothing
you want to stop
and still

of us
I did not recognize this
except perhaps by spells

whereupon it was usual
such men exist.

ORDINARILY

AA3

First we
opted to breathe that
in 1942
at the hour
impoverished (or purified) by
now someone
put her arms around me and
received a not inconsiderable
need for a second

by which the world knows
we feel ordinarily.

WAS RIGHT

AA4

Capable of faking
no picturesque interval here

maybe the other guys should get it
for starters you and I could.

We are their
movie, in
maximum thickness. Men
beg us to settle and save
positions they took

out in Chicago where
Shakespeare was right.

THE BEATS

AA 5

I wanted
the beats

over and over
to break
another, then another
small town full of strangers.
I wanted to break open
her
eyes full

of children we didn't know, and
her pulse, counting the beats.

COINCIDENCE

AA 6

I ran into Dr.
What — in other words.

I suffered from morbid aberrations
thinking about the history
every day from Paris
well-disposed people are amused by.
Times, etcetera,
were rivals and came to hate each
high-class European

salesman whose line was
impressed by the coincidence.

MEN TRY

AA 7

Overflow
taken a good and great government

deep art of
each case in turn
perfectly where all letters were
read by
his eyes sharp with amusement
always playing when
for the purpose

of their content
sensible men try.

FROM

AA 8

I had only to remember
rock dust and smelling

perhaps because he had.
Because he was so
I might have found the hymn
reluctant to give her
we usually sat there. But this
may have had her
stubbornness of mind

in a hurry
I remember waking up from.

BE SEEN

AA 9

I've influenced a few
he now makes and sells

at the horizon. He's nervous
under a half-moon
we're all going to get
in the moment he allows
back on. Her face no longer seems
complicated enough
I see

now he is out there
good to be seen.

MIRROR

AA 10

One day my grandmother
knew that his goal

there lay, virtually untouched by
reckless or maleficent
numbers, the Hasidim argue.

It is fair to recall that
word for word and line for line
a few
Hasidim argue

he threw her
me of the mirror.

HIM EXCESSIVELY

AA 11

He hears a distant
father's closest friend. He won't

hear just one familiar
man who preferred suffering at
clandestine visits to his strange
world. More solid

father's closest friend
will be a proof man survives
the way in which

all those fancy ideas
bothered him excessively.

AWAKENING

AA 12

Just as death may
indeed seem to be an ordinary

Iron Curtain

Rabbi

now I'd like

God, he demanded
right across from the church.

Voice

is drawn toward martyrdom

talking again
for his moments of awakening.

ON

AA 13

I had forgotten that this
parasite sitting on my left

took in
true-to-life terms
a long time.

I feel much
shall be
in the whole city
night whose darkness challenges

other Palaces of Dreams
began, as we rode on.

BLOATED

AA 14

There quite often at
a barely audible murmur

I found myself looking into the interior
images already imprinted on
fellow prisoners as well as
such deep grief after.

Pale winter sunlight
proper to those
I saw with my own eyes

could move
hearts and bloated.

MENTIONED EARLIER

AA 15

Among twenty-four Western
species discovering logic

in a kind of permanent
feedback loop
minimize the "giggle"
on one's own.

Oddly enough, this recondite sense
we hop down to
is what engineers call

our other

illusory black & mentioned earlier.

COME ON

AA 16

I was overcome by a sense
hanging on

not far from Cambridge
with almost improbable ease.

Same waiting room

SS men

there together in silence until
my favorite time of day
step over

purpose for which
I had come on.

WAY

AA 17

Until the seventeenth century
I did not understand

these overwhelmingly immediate
memories

seemed to pass between each
broken voice.

I would usually spend an hour
in the taking of
a people chosen to

understand it at
every possible way.

SAID

AA 18

Hillbillies in a state
coiffure seemed at times

my way through
far more conspicuous
history and cosmic
you once said something
that, I thought, was the whole
also to Eliot. Because of me
I distinctly remember

all kinds of ideas for you
"then you," he said.

WITH GOD

AA 19

What a nice evening
broken only by

time beneath his tremulous
hospitality of
when it is

he was so different
while all

bet your bottom dollar there'll be
far away over the sea

you like
very powerful with God.

INFESTED

AA 20

Bodies should have
fantastic pleasures

under the sacred white silk
for
giddiness caused by
oblivion. Of course
we preserve the shards of
sudden reversal
able to rise

for such expensive
pimps and middlemen infested.

SOON AFTERWARD

AA 21

Your father's last
commentaries on the commentaries

must hold out for
words. Soon

he spoke with enthusiasm, even with
refugees from central Europe
neither Jewish nor anti-Jewish.
You think you're living in peace
to tell him that

thought
soon afterward.

NOW

AA 22

Gaping in perplexity
when he had eaten

down

song

a peculiarity of man's behavior
could manage everything.

In perplexity
that he was anxious for
sometimes it's

memory
returned to his senses, now.

I KNOW

AA 23

Mother had more nerve than
the obedient little girl

somewhere in time
even more anti-Semitic
that night I
awakened
into applause. What was
perspiration
I watched her deliberately

put to use
I know.

BETRAY

AA 24

God did not give up
love you claim

with a laugh
accompanied by shrill cries like those
this holy moment
filled with sand and
stone in Israel to find you
talk. It's the end
God's apostles continually

spill darkness over
for you to betray.

AND MORE

AA 25

Upward and backward showing
all the apparent idiocy of

time I come to
affection which is
finally cleaned out. But
for an indulgence
regarded almost as
available
next time I come to see you

a typical day
lost more and more.

YOU THINK

AA 26

One
breaks without fail

at the attentions which I quite naturally
know. I had thought that
you think a single one
wanted to know
whether it would remain.
Perhaps imaginary or
what had gone before, surely

I could see it all
you think.

TROUBLE

AA 27

His daydream
eyes wandered

from
must not cause us to
talk freely without risk.

Quite accidentally, I swear it, my
real problem
looking for ways out
from his daydream

and his eyes wandered
into all sorts of trouble.

THEN

AA 28

I heard a voice
alone as

I was taken out.
He whom a sudden
solemn moment
of silence will force me to break
once a week I was
as little as possible.
His head had just left

from the night-light with
what it seemed to me I heard them.

INTO LAUGHTER

AA 29

She made a movement
you wouldn't make much of
with the visible and invisible
sharing. It is to a friend that you
who sang of the glory
look
out together
with black
sound and avoiding
a police dog
suddenly she burst into laughter.

ESPECIALLY

AA 30

You might have thought it an eternity
↓ therefore set

fifty years before. The mighty
stone building
an almost illusionist manner
knew
at last after long years in
mirror images, to which
you could see

faith, once claimed
work & was always especially.

THEY

AA 31

I was
then, following immediately
while the womenfolk hemmed
their minds
in March
before today and knew from experience
nothing beyond what
lay down to sleep
and God

I, I, would ever leave
with that they.

you

AA 32

Paradise is at the heart
because at that time no animals

seemed to be calling out
his thought and
stop your shouting.

This
doesn't need God's
eyes or ears
he thought

in a rage, decapitating
you.

HERE FOR

AA 33

She went into
higher types and finally

too frail to stand up
on this theme I rose in
can show my family
ice wagons and coal.

People had ceased to
know this kid's desire could
never go alone

and saw her
I've got to wait here for.

OR STILL

AA 34

There was a coldness in
the moment

so long as one knows
a few minutes later
to bring me back.

But at
thought about my time-table
what matter
in even the most unexplored

flights
is too late now, or still.

GAZING

AA 35

Late in the evening
it looks as if we're going to have

that sort of thing
you never see
at a respectable age.

With it

I am afraid I am
and returning
you never see

you have
kept on gazing.

AT

AA 36

Soon I myself could hear
him because I know

words mean what they say
and put on the dog in his
sort of scholarship
with its carpeting.

Why you
run through them
my best mind was now

with
then I only grin at.

TEARS

AA 37

Even if I have to wait for
his arrival you can imagine

who ever left the child's
irrevocable disaster. Victory
thoughts are far away
so I prayed for his.

You can hope
that night I
was no longer the same

victory
fighting back his tears.

ON

AA 38

They went
up in the marshes

when he had rendered his
utter twaddle.

They were built, of course, so now
only passionless perplexity
hurts

their dreams
in person, and were

he would drink meat soup
there they went on.

YOU IN

AA 39

He demanded
a tear gleaming in

all highly placed
life to spend
you now. But you still
set
only a tear
his eyes never left
upon them

he demanded other things
hate you in.

US NOW

AA 40

Something
I realized we would not find

is something other than not
words, and it would amaze
man in mourning
the unparalleled master.

Unforeseeable
human eyes have seen
there are also impersonal

signs of humanity
happening to us now.

HIM

AA 41

Rapidity of thought
is free from spurious

appearing and disappearing
to say
it will not be said
in reality
is to say he
said, I think,
son must have had

to get to know
I might have loved him.

MADE UP

AA 42

Very well placed, in fact
Mother

to the powers of divination that
get in touch with him
now entering as master,
I had already done
us and would
content myself with translating
for my still-ardent

inward moment
today on his account. My mind is made up.

THEN

AA 43

We now passed
ever so slightly ringed

company to come to
the belly, doubling her up. Then
you seem very
beautiful
and beg us to settle
in one
and save you from

when you come back
her up. Then.

SUCCESS

AA 44

His family depended on
any connection between us.

Yet it may be that
such a case
in his opinion
might come to some
considerations
as quickly as possible. He would
know

we used to spit
about his business success.

FALLEN

AA 45

I did not once return
the same half-light

when I got up again
to England.

I see no memory at all
reflected out
for the salvation of
a faint grayness
now, whenever

conditions prevailing there
fallen.

AWAY

AA 46

This so far there was
him like

Chicago because my parents were.
Old pickle buckets
in all this
of genius
while I was
a man
reeking. The old stink still

by imitation, I came
away.

SOLITARY THINGS

AA 47

I felt
so many unsolved enigmas

exhale their implacable
street life

manner and with that embarrassed
other guests. Outdoors it was as

I felt
after having read the works
that enemies play

to become fairly dull
solitary things.

NOT

AA 48

Today I'm going to teach
who he

run through every
sign of the cross
to his own voice

for a ghost, a Jewish
instrument. We offer him only
one day I'll cry
when surrounded by old people

just pretending
he is and not.

THROUGH

BB 1

This might have been
a picture window
I glanced at.

She drank the best
I was able to

as in a savage tribe
assembled there.

Taking up with her I had asked for
no lecture
to go backward through.

ME

BB 2

A violent urge to see
harmony between me and this
now just

after midnight
I've no pride or joy in

sent Christ to death
with a surge of energy.

He charged little for
running under the autumn rain
to me.

BE REPEATED

BB3

I expected him to come out
there
virtually counting on

swarms of coolies
worthy of respect.

I should have preferred
counting on his coming

and yet there
before he left I asked
to be repeated.

WHILE

BB4

Great unfinished symphonies
for your
enigma

make me
with each stroke

that they spare.
I am sure that

your wild youth wasted away
before the unexpected
for a while.

FALLEN FOR

BB 5

Until the seventeenth
space of time
descending slowly to earth through

large numbers
now shone a little

administrative zeal
of a shadow

supervised and statistically
isolated human figures in the foreground
fallen for.

HERSELF

BB 6

She killed herself
for conscientiously
alone somewhere in a distant part

of the performance
his sentences were sometimes spoken.

Trying with all
that emphasized his

strange vibrato
for who knows how long
she killed herself.

FOR EVER

BB7

No longer at the height
she had
all that unearthly brilliance

then to consider what else was
over between us.

Later on, she
will take a little time

I'll be attending to
in those days we had
for ever.

SUDDENLY

BB8

He also liked
those skeptics who considered
their

horizon.

In the metaphysical sense

take their repose
his particular

search for a cool spot at noon
begged him to tell them
suddenly.

REPLY

BB 9

A helpless puppet
standing looking at
that she must have forgotten again

I can tell you
singers continue when everyone

who came from afar
all composed themselves for sleep. Free

when I was
being a helpless puppet
she could make no reply.

WORD

BB 10

I would have sunk
her father
with anger. "He's

arranged it differently," said Jesus
and kissed her.

Bearing down over him
to strike

me where
her mind twisted now this way
Jesus got up without a further word.

VERY ENDS

BB 11

What I saw with my own eyes
creating a kind of
cry out loud

I
said

maybe even
all the way to Prague. Outside

further you can rise above
soon after we had
coming to the very ends.

WERE

BB 12

I don't think
more of the exciting anxieties
out again to

fix it. I don't want
to make a display

with illustrations from
when I achieved my success

by
intensely but incompletely thinking
then we, the defendant's group, were.

GOING ON

BB 13

It was quite impossible to tell
such a tale as I
in common with his

English, before
tonight. This may have been bad form

awaiting its sovereign
I have no idea where.

Before the night whose darkness challenges
something to get really drunk
he understood what was going on.

TO HAVE

BB 14

I wished that I could
have our human
aware that a natural connection

let her father sell her to
men. It was right now

and impractical
eyes are meeting eyes through

him in
her

I couldn't even bear to have.

SQUALLING

BB 15

A defect common also in
Hollywood as well
I was away

for her supper
because my parents were.

If I had any gift
they say

spoke of her
old smells revive in
this interminable squalling.

APPARITION

BB 16

They brought him into
this childishness of
what is extraordinary

consideration for him.
Altogether unaware that

they were now
more suitable

in fact he did inform his
members of the household
apparition.

NOW

BB 17

I'll be passing
from one shore
filled with sand

to see him again
in a deep shadow

along the way and
to hear him speak

Judas was
the bull's eye
and learned everything. He now.

SIGH

BB 18

I had made an appointment
thinking as intricately as
the winter of 1947.

I cannot
laugh

the full length of
music mingling with

surgeons
to this day. — But
hear them sigh.

AT HOME

BB 19

Even-tempered
many times since
my father

I can see now
had this impression more strongly

along with everyone else's pathetic
gratitude for his miraculous

power of thought
brought tears into my eyes
at home.

WAS

BB 20

You have
perhaps had
always said that I knew

culture or intellectual attainments
accustom people gradually

and Hollywood gossip
identified this interminable squalling with

then
any way you want it
so on this morning I was.

LIKE THIS

BB 21

The towering
poet he was
put us together

so that now I
then he stood away

to show how carelessly.
aimed at a community of believers

so far as I could tell
we now passed the towering
in an account like this.

OVERCOME BY

BB 22

The gold-framed looking glass
lost all sense of direction
you could see

appearing in constant
likeness.

Back and forth
servants brought us a

succession
you could see
I was increasingly overcome by.

CHICAGO

BB 23

Giving you carte blanche
the quintessence of
representatives

blearily similar to
words of comfort gave me my first

out. If you don't keep your name
maybe I should try the

understanding with
whispers and
a small chlorinated tank in Chicago.

LEADING

BB 24

There is really nothing
I could think of
while pedestrians fled

to explain how
this was why.

Spiel took in
thought of the life

domestic-relations
know that
we are now leading.

CHANCE

BB 25

He puts his hands
against a warm rock
to pounce on.

Ridiculous to ascribe
his right hand

thinking maybe
it is enough

he didn't see
morning re-staging the World
while there is maybe still a chance.

MORE THAN

BB 26

Here a difficulty has
thus lived done
and howls in the black

sum made up of stages
quote that

sent down by God at
time I say

hangs together still through
him who goes towards him
God knows but never more than.

WATCHED

BB 27

My mouth was filled with
the absent look of people counting
more and more slowly

on our return,

To gain some time

against people
against God

There are many old people who
think I'm judging
our return. We watched.

HANDS

BB 28

I preferred
false messiahs
whose ambitions were on a Messiah

Synagogue only rarely. I preferred
great difficulty

he never veered from.
Death train

fool, I shall go mad
to face
his heavy hands.

TO LIVE

BB 29

Some half-forgotten childhood
day is breaking. This
will be entirely

accompanied by a feeling
to precede each

profound picture
again. Fresh breezes from

passers-by
make-believe
would doubtless continue to live.

ICE PACK

BB 30

It was just about
time
around a brisk little man

discreetly trying to prevent
bad form on my part. There is

a word to me as to when
I went out this evening

and he let us
be denounced
with an ice pack.

HERSELF HAD

BB 31

I could no longer
read newspapers because
some time yet to come

which she herself had not seen
walking up and

about the still largely empty
air just above

never saw
my mind at the same time
she herself had.

IN

BB 32

Some considered him a renegade
angel
maybe. He says nothing

against the treason of friends
strong enough to resist

behind his back, but they
in their widow's scarves

come full circle. The act
only
he takes no pleasure in.

DONE

BB 33

Her heart
listens to the radio
when she gets hooked on

hopes with all
we generated

working overtime. She extends
enough to allow fast

ideas
on her
I haven't done.

OF DREAMS

BB 34

After having left
his opinion, tact was
switching your angle of vision.

With a raised drawbridge
you will have the principle

before a castle
God he believes in.

He loved hunting
that certain
you paint the sky of dreams.

HIS SHIRT

BB 35

They greeted the young
fairy tale
life and times

so that he could record it all in
fire. Together

God's
thousands of small joys

all at once
cry and laugh
from under his shirt.

ME

BB 36

We kept silence for
others came to
know everything a man can

at this moment.
Your last words

justify the comings and goings
which are almost human. You shoot

a good look at
the notebook to use
then that nausea overcame me.

NOTHING ELSE

BB 37

After her highstrung
who had
then the darkness

show no sign of such humiliating
for

right surprised us.
Who would save

barbarous sunsets
steal among the grey clouds
for nothing else.

FOR YOU

BB 38

I wasn't in
person you can imagine. Just let me
suggest that the player is

like the actions
he closed his eyes

to make.
He aimed

a player, or someone who fancies
more, with our Holium.
I'll put something on for you.

YOUR OWN

BB39

Often he just lay
automatically so that
perhaps his first strong impression

on the interest of it
interests but your own.

Day from early morning till night
can go on turning round now

when he experienced for the first time this
thought
your own.

HIS

BB40

I'd like you to know only
news he had
again. With a word he could

give you my tears
for an immeasurable moment.

Created just to slaughter one
without understanding

for some time
I do not even
think you were his.

MEANT

BB41

Men in suits pulled
various and idiosyncratic
thought that he didn't want

twenty-four hours a day
incapable of anything except producing

their gym-toned
punching

now whenever he shut his eyes
to only one person
this or that expression meant.

WATCHING

BB42

She doesn't look
across the flat
for backup

structure without strain. A breeze
certified bank checks

in her
sympathy for the reason he is.

He
thinking
she couldn't bear to watch.

BELOW

BB 43

Despite all its poverty
he was about to open
his mind. Terrified

that I should answer him
you would perform

what miracles you
think of, my child, when

now he turned.

A huge old man appeared
to mount the sky. Below.

WORK

BB 44

Houses
echo in our ears when
beginning his research

at that time from which
I had been now.

Above the roof of his
people in whose company I found

a cold winter sky
small sherry casks
work.

IMMEDIATELY

BB 45

I am still much the stronger of us
in minute, very rapid vibrations
we could certainly not endure.

Getting on better now
since that is so

she had no enemies
before the living room door

cut my explanations short. But of course
the old lady did come
immediately.

MADNESS

BB 46

At the heart of madness
let him sleep
where of course they

had never forgiven.
Accept it

between good and evil, between the past
actions and thoughts to God.

They reported that it
devotes all his time to
fear madness.

FEET

BB 47

Time has come for you
more than once
lay claim to every reason

still there.

At the same time

it was only after they
don't know why you make

a murderous truth. They
teach you how to kiss
beneath their feet.

ON

BB 48

He closed his eyes to
possibly match this
kingdom of heaven.

In the whole
day after tomorrow

still full of chicken feed
God was an abyss

elsewhere — but where? He closed
the day
Jesus put his hand on.

TO PLAY

CC1

The Messiah is

in hot water when
I shall rise, gird myself with
grievance and pain.

His vertebrae

suddenly flashed within
them. It was almost noon
I got all heated up
to play.

HIS

CC2

He sheltered his eyes

that many people
understand
did not topple. Since
first to turn eyes round

when the officer stood quite naked
art makes us feel
who only came
to meet his.

BELIEVE

CC3

Wearing a monocle

I learned later

we were capable of singing
to incite the others.

It was

then I heard someone cry out
any reason

we began to be
so anxious that people should believe.

MYSTICAL PERSON

CC4

He was made to join

this sacred and venerable
prison sentence.

Mingled into sweat running down
I could hear around me

people crowding outside.

Only then

no one can accuse him of staying
a truly mystical person.

IS How

CC5

She stares out

before she felt prey to
blood, already dry, on
a few minutes I'll be.

Crime generally

loses more

feeling that she is a spectator.
Short-sighted enough to not have
what I see is how.

IF

CC6

He watches

through the windows
staying a step ahead of
fiddles
somewhere else inside.

There is no substitute for
help from some new
feeling, you could go forever
the radio says. He wonders if.

HOSPITALS

CC7

In a very strange way

many
directors of public affairs
see the sea
darkness. It was time to get

absolute silence and calm
set up where the guests could find
hallucinations caused by some
perfect little hospitals.

CHRIST'S SAKE

CC8

A pipe which was

that crazy Dutchman's
must have had a light.

By night the chill
could be seen upon his

air of bravado
which we had entered
as sincere a lover
for Christ's sake.

TWICE ABOUT

CC9

He believed himself strong

without looking at
the house of
difficulty. You were
someone else

and like the first man ever he
knew your father
creates for himself a false image
never thought twice about.

INSPIRATIONS

CC10

His head resting

town is situated beside the sea
of a fashionable master.
Disfigured by two or three
in order to put up

many-colored toys which change
this base world
he had finished his
whole long series of inspirations.

VOICE

CC11

He picked up

my mind to finish, I'm not going
into the open fields

fire had not gone.

Like an eternal disgrace

I'm

everything that's happened to me
after him shouting
at the top of his voice.

LANGUAGE, POSSIBLY

CC12

At the edge where feeling should

pick up a little something
many were in code
again and think it
more sinuous.

to sleep

underneath the talcum powder

imbroglios

come from another language, possibly.

Upon it, by some trick of sight

coming, she
wasn't on a rope now.

Now did the universe invite
melody in reverie.

Her fibres told her that they were not
so terribly good
with a terrific symbolical
point of knowledge.

I say to myself

with a blank look on
it was that simple. Ever since
today I am only a question
in expectation of

her moving about
our future
in order to change the course
she was driving at and said so.

HE

CC15

Now there was something fugethening

time to time

the isolated words which

in fact she

counters with great force. If only

he put the finishing touches to

when she woke it

she would take off

from then on he.

WHITE

CC16

Had he been more determined

to do his share towards helping
father's faith in it's pedigree?

Women on loan from

a nature more forceful

did not stop before he

now who should be standing

as if in distant

sympathy with little Snow White.

TO SEE

CC17

I sling

the first
air of doing something which
shall be gratified.

A slight aptitude for

in fact somebody else
myself under
curious language which might have
what amused me was to see.

AFTER

CC18

After my night spent on

most delicious sweet-meats which I
will take out of your money
no one

again brings us to

silence

clear from Norway
I found myself in
the morning after.

OLD MAN

CC19

at night the words

he had begun to hear
found shelter with
her body
set to work to make

purpose in which he drowned.
When she finally
can see a long way from here
it was the old man.

TO KNOW

CC20

Now I was quite sure

of a large number
sent

to ask if he
in attacks on military convoys

hurt. But when you lose a friend
you can't
smile and
I needed to know.

PEOPLE SAW

CC21

I began at once

to share their houses. Food
in the long course of
an incredible disaster must have
salutation appropriate to

their last resting places.

Immediately after the dreadful hour

I have

now people saw.

BE

CC22

Arms and ammunition were

going

for it would have been unsafe

where I went, straight from

blood to fire. Then came the last

all eyes

won't forget

I knew that this

our future will only be.

DISTANCES

CC23

She had taken on her job

a more remote force
who, leaning eagerly forward, said
that he might depart through
pleasure. He was the kind

neither intellect nor imagination
come to a rest at last at
she answered with
his whole consciousness of distances.

SHE REPLIED

CC24

I'm my own boss

for an indefinite period
though we live
just like a hundred other natural
people needed

to come back all the same.

People needed improved conditions
I should say that Father has
she replied.

PERFECT EQUILIBRIUM

CC25

Wearing only a thin blue

with our old

workmen behind the curtain

a child's

friend and I have

to prevent any torments that threaten

when anyone

in the lighting incites her

perfect equilibrium.

HIS

CC26

He awoke nauseated

sects

under the steps

to all times and all

I thought more than once about.

Who can say whether

any person might know

now I search out that memory

untranslatable as music From his.

THERE

DD1

It was fun to think
on an afternoon in early June
they had gone down
by the fire that burned a man.

Blinded and choked
poets were speaking
while it burned

in order not to thwart him
when he wasn't there.

VS THERE

DD2

Everyone came out
to work as usual
even if only for a moment
& did not feel any

shouts or blows
her ten-year-old son
ceased to feel from their

Master of the Universe, Who chose
a dream. Not far from us there.

TALISING

DD3

The woman now beside him
made normal noises
when she had
to spread days out.

It seems such a long time
before he spoke again
she said with almost a sneer

outside her own room. She
might have been talking.

CLARITY SPOKE

DD4

A few words
stood under the wide open
volumes
I had taken up

to bed. After I
have written
in all the time

that evening and later
a quite singular clarity spoke.

GET UP

DD5

The sun sank in
now she saw that
milk or wood
made no impression on

his face. He would sit silently
where she had spent so many
the blind man had given her

now and then
get up.

US

DD6

That they couldn't see he was
no one can hurt us
who'd been surrounding the horse
under his sensitive

acting
with this unfinished declaration
and incoherency. (I know of one

acting in any other way
can hurt us.)

FOR HER

DD7

She had warned me against
everything for the reunion
& don't know who
cases.

Serious intellectual subject matter
of beautiful paisley
truth in all

any young woman would find
& fell first for her.

WITH

DD8

He was phoning me from
them for their cowardice
but at times only just
where the family owned

up with critical essays on
this state.

He always fed me

a life cycle
to put us together with.

SCHLAFEN WITH

DD9

People were in despair
so, when this man is dead, you
save that he was a just man
to ours. He ordered

quite a pretty brunette who
perhaps the souls
you may

reveal his mystery
to go schlafen with.

MAKE

DD10

Man often seems absentminded
below the rim of
nothing but sorrow.
He began

suddenly, or so it seemed, from his
entrance to
humiliation transformed

fantasies, horizons
no one can make.

FITS

DD11

So that night
what would you give
if we lose more than half
now in a mausoleum

eyes

like? You're like a person from
Zane Grey Westerns

there we were

I'd say, interrupted by fits.

FROM HERE

DD12

I could fling my arms around
anywhere on this earth where
for a few minutes
about the old people

paralyzed

just now a woman who cleans
what I wanted to tell

would like

certain doom, far from here.

HE WAS

DD13

A bouncer with
tenants wanted help
now we can stop
but he was the only one

you up in Chicago
beat or kick.

I would have had to be completely

at the periphery looking inward
instead of being a poet he was.

DISAPPEAR

DD14

I had
a last glance towards
whom my life had been tied for
events. The doctor

did not know that
wishing one another
back in its holster

must never make
family except his father disappear.

ANY MORE

DD 15

Perhaps she was already dead
embers of
the news
now it broke in silence. And already

who was destined to be fatherless
with it
picking

her
does not want any more.

EYES

DD 16

Words escaped her
you sit here
to mind a life in which
they may be.

She'd be quite comfortable
next day
there's no one

you can still ask
in the words with her eyes.

EVERYONE

DD 17

He alone could put to use
eyes
with a single
head held high before them.

Who never made fun
could only shrug his shoulders
for the second time

where words and images
go to bed after everyone.

OF

DD 18

Only God existed
one night when he accidentally
was as if
his disposition.

Questions
make it a prayer
and gave

a parting gift
he had mastered the useful art of.

ASKING HIM

DD19

Man he has fleeced
for all
over the high heath there
stand open to you, my dear.

Often the youngest son would
make
your letter of hope

that these poor wretches haven't
ended by asking him.

TELL HIM

DD20

Afterwards she turned aside
two children behind in
red and red
he stood next.

Here for the first time she felt
all that now
on the sharp knife

chastised to his bed
of cool water. She would tell him.

ENGRAVED

DD21

I often worked next to
his face reflecting
farther away so
I would not be

after a few minutes.
Our back yard had become
that time where question and

hunger, stronger than
hands, engraved.

ANYTHING BUT

DD22

I thought a little of
my oath
in opposing
this habit and tried to.

I could remember what I have
to be on the watch
in spite of my

face and hands
never thought anything but.

CLOSER

DD23

As if I were delirious
predating her own arrival
in spite of its clear-cut
measure and

faith after a while

I am to blame.

severe judgement. She does not lead

beyond measure and still sickly
I moved closer.

THAT

DD24

He always comforted
a certain brothel that
taught courses open to
streets where the crowds

have a wonderful view.

He also set off
to beg bread from

all those sublime
with infinite nostalgia for that.

SEE

DD 25

Three cheers for
faces
have been built by indifferent
out-of-the-way

men in general and
masks which hid people's
human life in the same way

insisted each time on paying
with eyes that do not see.

THEIR MOTIONLESSNESS

DD 26

Take a good look at
the shards of
every night all summer long.
The way they stopped suddenly

identical shiny black
more visible on
this

able to withstand
their motionlessness.

A PIECE

DD 27

Automatically eating a piece
you shall not pretend at all
to shape in verse
much

I don't think it'll
conceive a way of coming that
would, under God, be

what we want
all of a piece.

MYSELF

DD 28

The thermometer
was almost devoid of human
numbers
which may usually convey a sense

that you could make out.
Imagine any world outside
that immediate post-war

account of the extreme
company I found myself.

BE I

DD29

We have
who did not stir
to this testimony which
will always be the same.

It is obvious
what he was waiting for
if there are

grounds for these
that may be d.

WILLING

DD30

In the faint
thought yesterday that
it was fun to think
he was still innocent enough.

at its long
revelation of something
that hurls up

to manage a more remote
conclusion he was willing.

GESTURES

DD31

Signs have been seen
making progress with
everything
in the Bible

I am.

I wanted to see
firsthand

just such a joyful
series of lightning gestures.

FOR HIM

DD32

Suddenly he saw
and neatly rolled
in my eyes.

The man came toward me

to expect that
minutes at a time
rushing with

a joke

what I can do for him.

BE

DD 33

Upon
conversation of two men
able to communicate
without saying a word to

see each other's
city that had magically swallowed
effect of the previous life

heroes in an earlier
English language may not be.

TO SPEND

DD34

He expected to impress by this
first that came at intervals like
God.
at the crossroads

say, in a voice strained
swell of
how confusing it all was

surely, they begin
more than likely to spend.

THE PAIN

PD 35

She saw immediately
he would sit for
the people
now remembered with affection

a long time. Once again she
gave way beneath
and fell abruptly to his

people sat
up to the pain.

EYES ?

DD 36

Do you know nothing of what
he found that
eyes asked commandingly ?
Do you

dream that was an admonition from
wanderings to
others and the room

there as a youth
remarkable in his eyes ?

ESCAPED

DD 37

Words escaped her
poor hut far from everything
up to the pain and
swollen pockets.

She saw it all
with her bloodshot eyes
so that after

a sausage
the words escaped.

HAVE BEEN

DD 38

To enter
now all embracing
currents of air high above
is no more than

their agony gives rise to.
Wind billowing
order, they donned their

language become so emphatic
memories would have been.

TOLD ME

DD39

Boys told me they brought
both key and time signature
to cover their greedy
time

in flames before nightfall. It
was fine
true-to-life terms of the portrait

apparently gone so far as
boys told me.

RUNNING

DD40

I was even pleased about what
wake with a start
he kept stopping every moment.
Those absent no longer

too old to start a new life
went off well
when suddenly there were shouts

I did not believe
that he had been running.

REPEAT

DD 41

An infinitely delicate
time has come for you
and all is lost. The new
firing squads, raising

neighbors
with a sigh
you choose not to understand

in a concentration camp, one evening
after tomorrow you'll repeat.

COMPELLED TO

DD 42

I can still see him
you'll never forget
said
to resist it. From the days

God gave me a son
I know
I promised

you the history of this
childhood, as if he were compelled to.

THE DISTANCE

EEI

Year after year
surely would scatter
to rise in the air

head

now he is himself
for music of a sacred
heart and hand

tell about
drawing back.

at last
with all his
soul

and her tradition

his mother's
away from
a doubting

world that can make up for
her words in the distance.

HER

EE2

History
in time was forced to earn
a new admiral

by claiming to be her son.

Well-nigh
brightest of all
she proposed

will have his face
nearly taken over.

No more than
the person chosen
quite certain

hopes

remain where he
will be punishable by death
in time

ordered for tonight
should have seen her.

ANSWERS

EE3

Hunger never bothered him
an angel asked you to make
me far more than

and his eyes

would do well
until the next day
they're mad, they said.

I know something about
who doesn't exist

as soon as you
watching the performance.
Now at his eyes

an angel asked you

he was going to
ahead of
other things

I thought
she answers.

OUT

EE4

Never would anyone dare
test us
and the images around

assist him

live for time
long past
all these people

to tell me whether there is any
soul. Perhaps as early as

a flower
she answered
from all sides

and when he could

I saw my fate clearly. One deeper
there is certainly
now I held it by

the very fact of doing something so
old man went silently out.

OBTAIN

EES

She had a clear
hope
they could have for

enemy remain upon

newly baptized man. He gathered
everything possible to recover a faith
superficial knowledge

evidently kept
interesting.

Love of God
they could have for
at least fifteen years

trained on him

to love
she'd have
in the folds

which none would
obtain.

TO ME

EEG

You come here
as we were not allowed
at this time of day

he got out

all I had to do
with a complaint
for all eternity

alive in our hearts
shall never know.

Then he understood
we at last succeeded in
our march toward

little more

no longer smiling
against
a single place here where you

must be
what had happened to me.

ALONE HEAR

EE7

I'll have it later
come back to
last stage

the middle of this

often happy God.
Happily to no effect
possible than weaker still

A journey
near and far the old

kinds of solitude
no more.
God knows

how it was

sometimes in this
last gasp perhaps
leaving only

my life
alone hear.

LOOK

EE 8

Little red fire burning
a company of the irreproachably
new frenzies as

memories were aroused and begun

like shadows under
it, I am not yet
in accord with

eyes he took her.

All that remained

in dreams until
memories

cheer a little along.

No matter how much he stormed

her little room

I feel responsible for
God has given

greatly

to have just one good look.

PEOPLE

EE 9

He thought while
God did not
as I

it's better

you are a man
and cut me to ribbons.

His desires

cried out "God is joy!" and then
set

in the eye without afterthoughts
I'm talking
them calmly

back into time. He

asked if I understand
you weep silent
accounts of

a man

God doesn't send people.

END

EE 10

altogether tried and true
newcomers
where he was born

transcribe the first

specimen, perhaps, of that
unaccompanied dance.

From one

all at once he fell like
interior perception

to weave underworld
without so much as a single
sentence. When this last

frequently recurring

dream he was visited by
took
in high places

most
end.

THIS EARTH

EEII

I am standing
while she examined
one mile of dark

you go

into a house and
the very first message
with empty eyes

to face it anyway.
I saw your face

she took
back from where
these things too

catch a nail. She pushes

down
so sweet you would have
nothing like it

I reckon
in hell or on this earth.

FRIDAY NIGHT

EE 12

As long as someone
is picked
out there on

Friday night he was watching

what caused the explosion
before my group leaves.

He was

the religious feeling with which
a miracle from God

evoked longer and louder applause
don't think I'm not grateful for.

He

among startled people venting

suddenly
into unconsciousness
who visits me

will be here next
Friday night.

FROM

EE 13

Lost so many times in
the way it did
get at

anything for a while

because he didn't believe
light came
to lift her.

What work she
split with one

signal that let
thought
fits

to laugh at him.

Spirits
make his presence
carry her out

otherwise
where light came straight from.

FOR THIS

EE 14

With much marked
lineage which
placed

him once or twice

with error
you would have
here present

less than he
always

standing at the fire.
Together
one speck of sand

confessed and

answer that
always if ever
first he saw

what system
you pay rent for this.

MORE

EE 15

↓ choose
after
they have housed

certain time.

Worthy of adoration
it flees
before

their rounded
eye of distant sky.

As two
in man and
all that

let there be no

demon whom I house
underground yet
abandoning the Empire

indisputably major collections
can do no more.

BREATHING

EE 16

She had
whims and worked slowly
as long as you

for all eventualities

used
speeches
since

you might have
let her live

from a certain angle
one year
the end

restored and fortified

where
faith in immortality
would be able

enough to cope with
breathing.

MEANWHILE

EE17

You still
corresponded perfectly with
far-off years

and take note that I am

the Socialist leader around here.

But there are some
spat on like that

old Russian revolutionary
you know I'm

at our last meeting.

Because he
wanted to show

in this fashion the wrinkles of

country we
could not sleep a wink
our love was

calculating
to keep alive. Meanwhile.

OWN

EE18

He begins humming
how to handle
when she was

me, as if I had been wounded

through the window
on this boat.

Here so

I could never have the woman
my own

he

managed

old men davening in

a big brownstone church.

He got

to sit with her

as if there were two

hours of the morning

I took these concerns for my own.

APPEARED

FFI

It was

just one more of her many

new winds invaded

after this

desperate scurrying about

hours next

cut off in midair

she had brought

and said nothing

seemed to be made of

who was preparing

what will happen when

vacationers appeared.

EXECUTION

FF2

Sight so comical that

they don't dare walk out

a moment

now this was

as if he belonged to

sorrow written

you. "You talk as if

you are," he replied

to her

you will see before

this world

built upon

awaiting execution.

HERE

FF3

A boy who looked
out to someone else
so long
wanted by the police
pointed out the arms and
forgot
that I had
grown up
one of them.

We repeat the first bulletin
then he turned on
deserves our admiration
here.

A FART

FF4

Even after the first

God

and forensic point

reached

to be taken in

there is not a grain of truth

that his papers were

finely honed

altogether by

what we needed. At least

fuddled

hearings and actual trial

I don't give a fart.

HIM

FFS

Whispering

continued to haunt

his personal interests

in this part of

their dreams

without harm. Early

see how anyone

with greater moral

had

and knew from experience

great superficial beauty when

at last the whispering

endowed him.

ONE BORE

FF6

Half-forgotten childhood memory
was very well composed
when passing a funeral
and here again

bad luck.

Men were dying away
toward the sanctuary which normally
would never have done with it
having left

a kind of antidote

yet another new idea encountered
around ramparts indispensable for

these social circles

from time to time

each one bore.

ACCENT

FF7

Apparently

rough wooden table

labors

will happen when we've

crawled into the village

part of her memory

you understand.

Word escaped

for the most part

your age I was already keeping

and she immediately got

to get up

an effort

given

in a foreign accent.

Do you

FF8

I would look into
time the Messiah was
relaying your last words to
in an hour
play upon a different stage
never seen again.

God

will be hanged

then

will have

another

silent as

I have been charged with

Terrorist activities

you don't understand, do you?

CEASING

FF9

Sometimes one followed

while

demigods become poseurs through

meditations

of long ago.

Yet it would be

a place in

circumstance that has provoked

time at all the whole sky was

as black as ink

could only half

regard

contemporaries

telling stories

fell without ceasing.

SHRINK

FF 10

all

your age

bloodshot from lack of sleep

surrounded her.

Next to

scattered life it seemed

you understand

between two lovers

she gazed at

the end.

Already

when the snow began

you remember how

inward

times like these her mind would shrink.

INDIFFERENCE

FF 11

He started
things and beings
understand the language
as a counterweight.

You'll be insane
eyes
strong enough to
imagine that there was
a dreamer
just as death
in the long course
he had guessed it from.

Dark circles
you're still living
aroused only indifference.

DARK

FF12

Come on Sunday

now she felt a faint

I was already keeping

there

with her

after an exchange of arguments.

I like a fool listened to her

every step she felt

age

irregular verbs

gentler than before

there was no one

sitting

for hours looking at

this secret more than the dark.

COME

FF 13

After a while

you

don't think it was

the top

here I began to understand.

Does it mean

you see what

a certain amount of anguish was

and physical decline

I clammed up

mitigate this fear?

As equal powers

actually wait

out of respect for the real thing I

entertain you till they come.

BEING REMEMBERED

FF 14

From out of the corner
historians assign
my embarrassment
names
would be crowned by
senselessness. I couldn't watch
shadows above
to ask you before we get
from
matter
a few
mirrors that faded
for the other
no longer capable of acting
merits being remembered.

ALONE

FF 15

He doesn't understand
a warning that seemed to have
suddenly stopped
and sent them back
again with primordial passion.
There was an immense
trembling of his
custodian

God's will has taken over
long before they find
her tenderness. Everyone tried to stay
without their being aware of
these men who advanced upon him
she made a movement as if
alone.

AS LONG

FF 16

We are

over the mantelpiece

Water

I remember once again.

A foreign body about to be

all functions

in Wales before

much more

I could connect

returning to the flat

life. We are not alone

throughout this part of the journey

over millions

I walked through

memory for as long.

AWAY

FF 17

He thought better while
little
enough
had just come back from
me as I am
to resist
dying in shame
before a thousand
bowed their heads.
He saw me
betook
of God
Father had just
then that
I was away.

IN

FF18

Why did you talk to
me

by the law itself
from our ancestors?

Among them

I remember

a week later

wide eyed

one could say

their words and gestures

alter the past.

True repentance

I was caught with

you can hear

they spend the trip in.

PERSONAL EXPRESSION

FF 19

Taking out his horn
where I am not afraid to
may be the only
aim higher
others have wronged for many.
I don't understand
where
he still had
these
no one can protect.
I am not afraid
all the countries abroad
smell
his trousers and up
without vital personal expression.

ALL OVER

FF20

Hacked to pieces
a great deal
we'll fix you fine
numb skull.

We shook
bad art, as a rule
to get rid of
it. Now we would see where art
hid behind the budget
to give
when
better equipped
people won't let you disappear from
hair sticking out at
supper all over.

OFF

FF 21

Their melancholy grin
man should console himself with
unconditionally relegated other
people between her
monsters
to sell me
the country and
said not a word
for more.
Hell to me
must be persuaded
they'll buy anything from
his views
she began to vomit up
by running off.

DONE ABOUT

FF 22

As it went this was all
for her and
erupted in vacant lots
I would have
so on this morning
terribly
bound to go
into a legacy
even at the Plaza.
I'm charging
crowds of people
as she went back
right out with
one that
can be done about.

UNTIL LATE

FF30

He failed to
call her and ask
in the disease devouring
a man of thirty
sausages
at last. She slept for
what he failed
was no longer.

But also
from its yoke
nothing bad would happen to
sometimes he
sensed the thin
sound of her name
would sit up until late.

ALL HAVE

FF31

Protective toward this
life with its love affairs
instead of taking umbrage
for no apparent reason
suddenly he wanted to laugh
and was once more aware
transparent gray
killers cut out
a share.
Although
already too late
in the crime
one is never as lucky as
his tongue
we all have.

GOD'S SAKE

FF 32

Police put him in
and it would be chintzy
as
that I was more limited
territory. The day
had had enough
manic energy
at first he refuses
the common ground of
whatchamacallems
I tried to look through
better
really in a furious
Stop and Shop
Only for God's sake.

ON

FF33

Down on the cool
pitch of
his consciousness once more
get me a new felt
comic figure
so as to observe
it now retrospectively
led off. He has
by profession
of fury that I shall
end in horror
at least to some extent
entered
for a whole day before
our people who are almost on.

MARK

FF 34

There were a good dozen
white sandy paths
to this day I can sometimes
mind down the streets leading away from
eyes wide open.

That long journey
like an absolution
unraveled syllable by syllable
thought of

sitting motionless
on this way to the Promised Land
when I

plan in mind

mauled and cut down

as an extraordinary mark.

GOOD FORTUNE

FF 35

Although at some remove
in eternity upon
hearing the cry of a man
taking great pity on
instruments whose use
now I know
all history knows
it had to be. At the dance
upon their first
use he
drums, curses, gongs
all its kingdoms
to assume such a privilege
I speak of
with good fortune.

CONFLICTING

FF 36

Those who write
about the many
penned such a lofty work
blinded and dizzyed with bright
people ran between us.

Hearing what
that's not born
of the European
all men felt
has filtered into our schools.

Like a sense
unbounded
to say
many names
they might seem conflicting.

OFF

FF 37

Every week

they'll all come back

themselves from the survivors

as this she sat for

there like a lump of

Jews

narrowed even further

day after day he sat and drank

and ran. Now

words escaped her lips

sucking the snow

once in a while

as if he had

this

shake the water off.

HUMAN TIME

FF 38

What the chief clerk
from a well-to-do family
rather than hers
wanted
daily at business and
wasting time
he is not easy to get.
Ridiculous
nature forces
information about her
someone had apparently
as well
so he won't be coming to
unriddle the mysteries of human
time.

WITH

FF39

The plot of
images

she called us all

to give out

reports an ambiguous conversation between
several unknown persons

I am.

Any news about

to get out

yet a third different possible

day we heard that

her

images in dreams

house like all other houses

I am not familiar with.

WRINKLE

FF 40

Directions

absolutely of their own accord
there lay before him now three
more than the boy could answer
and say that five million
would be so very manly when
melancholy
man is a man.

Without any hymns
of anxiety and suspense
his trouser bottoms were tucked
with their Savior
at once up
in other directions
again the long-forgotten wrinkle.

FACT

FF 41

Intellectual capacities
had long trained
people watching from
mountains.

Haunted by these memories
holiday crowds became alarming
and, although night
continued to play, to toss
a river which ran through
certain scientific tomes,
it was in Germany that
there is nothing more
above this unexpected landscape, near
to the people
of fact.

NOW

FF 42

She had been terribly
alone at home
when the child
a while to
tastes they could feel in
bones and red blood
well. There was nothing she would
spin around such
communion with those prime
to declare that in life everything
lacking
here often enough
think of coffee
for a while
when the child was now.
